**Subject: Fiscal Year End June 30, 2018 GASB Statement No. 74 Disclosure Information
for the State of Maine Retiree Healthcare Plan for State Employees**

Dear Sandra:

This letter and the associated documents contain certain information required by the State of Maine retiree healthcare plan ("plan") for State Employees in connection with the Governmental Accounting Standards Board ("GASB") Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans." The calculation of the liability associated with the benefits referenced in this letter was performed for the purpose of satisfying the requirements of GASB No. 74.

GASB No. 74 was first applicable for the State of Maine as of June 30, 2017, with that information having been prepared by the prior plan actuary. The information provided herein will be used for the June 30, 2018 GASB 74 disclosures.

The Total OPEB Liability and certain sensitivity information shown in this letter are based on the actuarial valuation performed as of June 30, 2017. The Total OPEB Liability was rolled-forward from the valuation date to fiscal year ended June 30, 2018 using generally accepted actuarial principles. We are not aware of any significant events or material changes in benefit provisions that required an adjustment to the roll-forward of the liability.

This letter and accompanying exhibits are based upon information furnished to us by the State of Maine, which includes benefit provisions, membership information, and financial data. We have analyzed the data and other information provided for reasonableness, but we have not independently audited the data or other information provided. We have no reason to believe the data or other information provided is not complete and accurate and know of no further information that is essential to the preparation of the actuarial valuation.

This letter complements the actuarial valuation reports as of June 30, 2017, provided to the State and should be considered together as a complete report for the State's fiscal year ended June 30, 2018 GASB No. 74 reporting. Please see the actuarial valuation report as of June 30, 2017, for additional discussion of the results used in the roll-forward, including the nature of actuarial calculations and more information related to participant data, economic and demographic assumptions, and benefit provisions.

A single discount rate of 6.75% was used to measure the Total OPEB Liability as of June 30, 2017 and June 30, 2018. This rate is based on the long-term expected asset return for the State of Maine Retiree Health Insurance Trust Fund. The selection of this discount rate is consistent with the rate to be used for purposes of GASB No. 74. Since the State's postretirement medical plan for this group is being funded by assets in a separate trust, GASB No. 74 requires that the discount rate be

based on the long-term expected asset return to the extent that assets are sufficient to cover future benefit payments.

Actuarial Valuation Opinion

In our opinion, all costs, liabilities, rates of interest, and other factors underlying these actuarial computations have been determined on the basis of actuarial assumptions and methods that are each reasonable (or consistent with authoritative guidance) for the purposes described herein taking into account the experience of the Plan and future expectations.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operations of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the Plan's funded status); and changes in plan provisions or applicable law.

The undersigned with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

This report was prepared solely for the benefit and internal use of the plan sponsor. This report is not intended for the benefit of any other party and may not be relied upon by any third party for any purpose, and Deloitte Consulting accepts no responsibility or liability with respect to any party other than the plan sponsor.

To the best of our knowledge, no employee of the Deloitte U.S. Firms is an officer or director of the employer. In addition, we are not aware of any relationship between the Deloitte U.S. Firms and the employer that may impair or appear to impair the objectivity of the work detailed in this report.
