Superintendent
Basics of Individual Major Medical Insurance in Maine Under the Affordable Care Act (ACA)

Any Maine resident who is not eligible for Medicare can buy an individual health insurance policy.

**Tax Credits:**
Some people can get help with paying for a plan that is purchased through the Marketplace, depending on their income, household size, and whether they are eligible for another kind of coverage. The assistance is provided through tax credits, (and potentially through lower cost-sharing requirements.)

If you are eligible for insurance with *minimal essential coverage* through your employer or through the employer of your spouse or parents, you will not be able to get help with the cost of a plan through the Marketplace. You can still buy individual coverage on or off the Marketplace, but you will want to carefully consider whether the group coverage available to you has better benefits, or costs less.

**Pre-Existing Conditions:**
Major medical insurance issued on or after January 1, 2014 cannot exclude coverage for pre-existing conditions.

**Essential Health Benefits:**
The following ten essential health benefits must be included in major medical insurance plans:
- emergency services
- ambulatory patient services (outpatient care)
- maternity and newborn care
- hospitalization
- prescription drugs
- mental health & substance use disorder services
- laboratory services
- rehabilitative and habilitative services and devices
- pediatric services, including vision *
- preventative/wellness services/chronic disease mgt.

*Adult dental and vision coverage aren’t essential health benefits. Dental plans may be purchased separately.

**Preventive services:** Individuals do not pay co-pays, coinsurance or deductibles for certain preventive health services that are provided by network providers, including routine immunizations and routine physical exams, such as: gynecological exams, digital rectal exams, pediatric eye exams, mammograms, and routine and medically necessary colorectal cancer screenings. Talk with your provider about whether these procedures are considered “routine” or “diagnostic” in your specific case. You will have to pay a portion of diagnostic exams or procedures.

Check with your insurance company before your appointment to see which services are covered without additional cost to you.
Cost-sharing
This refers to the portion you will have to pay (or “share”) for covered services, at least until you reach the annual maximum out-of-pocket (MOOP) limit. Deductibles, co-pays and co-insurance are all types of cost-sharing. (See page 6 for a glossary of terms.).

“Metal Levels”
The ACA has standardized levels of coverage into “metal levels” — Bronze, Silver, Gold, and Catastrophic. The levels are meant to more easily compare the cost-sharing requirements of different plans. All plans in the same metal level will have the same average cost-sharing.

Use the Bureau’s online rate calculator to see a quick breakdown of the costs, by metal level and specific plan. (See more about the Bureau’s rate calculator on pg. 5 under “Premium Rates.”)

Some questions are listed on page 5, for you to consider when you are reviewing the different plans and their cost-sharing differences.

It’s also important to know that when purchasing certain Silver plans, individuals who qualify for a premium subsidy may also qualify for assistance with out-of-pocket cost-sharing (through lower co-pays, co-insurance and deductibles).

Catastrophic plans have the highest out of pocket costs and lowest premiums and are only available to individuals age 30 and younger, or to those who qualify for a “hardship exemption” or an “affordability exemption” (available to households whose annual premiums equal more than 8.16% of their annual income).

Dependent Coverage - Young Adults:
Insurance companies generally must offer to cover your dependent child up to his or her 26th birthday. Eligibility is not limited if your dependent child is married or has his or her own dependents or files his or her own taxes. Your dependent child also is not required to be a student to qualify for coverage under your plan.
2019 Individual Plans Offered in Maine

For plan-specific questions and additional information, please use the phone numbers or website addresses below. You may also contact a local independent agent, broker or Marketplace navigator (see page 5 for more information). The plans and rates insurance companies offer in Maine are reviewed and approved by the Bureau of Insurance. You are welcome to call the Consumer Health Care Division of the Bureau at 800-300-5000 (in Maine), or TTY 711, with any health insurance-related questions.

* See the following page for explanations of these network types.

**Rate Calculator**

If you use the rate calculator at the Bureau of Insurance website, it will show the plans that are available to you, based on the county where you live. See more information on page 5 under “Premium Rates.”
Health Care Networks and Premium Rates

**Health Care Provider Networks:** The networks available to you are determined in part on where you live.

The insurance companies offering individual plans in Maine have the following network types:

- **Preferred Provider Organization (PPO)** - The insurer contracts with a network of hospitals and other medical providers (“preferred providers”) who agree to accept lower fees. You receive a higher level of benefits if you go to a preferred provider than if you go to an out-of-network provider.*

- **Health Maintenance Organization (HMO)** - You must choose a primary care provider (the provider you would see for your annual physical) from a list of participating providers. For any non-emergency hospital or specialty care you must get a referral from your primary care provider first. Typically, out-of-network providers are not covered at all.

- **Point of Service (POS)** - Has characteristics of both HMOs and PPOs. Like an HMO, you must choose a primary care provider (PCP) from a list of participating providers, and for any non-emergency hospital or specialty care you must get a referral from your PCP first. Like a PPO, you can see an out-of-network provider but you will pay more than you would to see an in-network provider.* Out-of-state providers may not be covered.

- **Tiered Network** - Under this type of plan, you will receive the highest level of benefits if you see providers in the preferred tier. You will still be able to access in-network providers in lower tiers, but your cost-sharing will be higher.*

* Note: If you use an out-of-network provider (and in the case of Harvard Pilgrim’s tiered networks, a provider in a lower tier), your cost-share will be higher.

**Premium Rates:** Premium rates depend on the plan you choose as well as on three personal factors: the geographic area where you live, your smoking status, and your age.

- For a quick calculation of the premium estimate of each plan available to you, on or off the Marketplace, use the Bureau’s Rate Calculator (look for the link at [www.maine.gov/insurance](http://www.maine.gov/insurance)). If you don’t have access to the Internet, or you need assistance, call the Bureau’s Consumer Health Care Division (800-300-5000 or TTY Maine Relay 711) and we’ll run the calculator for you. (Note, this calculator does not apply any potential subsidies.)

- If you are likely to qualify for subsidies, go to [www.healthcare.gov](http://www.healthcare.gov) to input or update your household size and income, see more details about your plan options, and get rate estimates that include your potential subsidies.

Check with your insurance company before you purchase your plan to see if your providers and hospital are in the plan network.
Comparing Plans

Before purchasing a plan, compare benefits, exclusions and premiums carefully. Most plans on the individual market offer the same basic benefits (listed on pg. 2), but some offer extras like acupuncture or adult vision. Also, drug formularies and provider networks (see glossary on next page) vary from plan to plan.

Service is also important; a company that provides superior customer service may be worth additional cost.

Some questions to consider when comparing plans:

Networks and Prescription Formularies:
- What medical providers are part of the network? Are my doctor and hospital in the plan?
- Are out-of-state providers covered?
- What is the formulary (cost) of prescription drugs I may need? Are my drugs covered?

Limitations:
- What are the limits on services or on the number of visits to certain types of providers?
- Will I be covered if I travel?

Cost:
- What is the annual out-of-pocket cost for in-network services, out-of-network services, or for different tiers in a tiered plan?
- Is the plan compatible with a Health Savings Account (if applicable)?
- Am I eligible for a tax credit? If so, does the insurer sell their plan on the Marketplace?
- Are some services exempt from the deductible?
- Is there a separate deductible for prescriptions?
- What are the co-pays, co-insurance and deductible for out-of-network services?
- Is there one deductible for an individual and another for a family?

Getting Help
- Find a Marketplace navigator or assister at www.healthcare.gov. The website also has answers to most of your questions about individual health insurance and subsidies.
- Call an insurance broker or agent to compare plans and rates. (Note, not all brokers and agents represent all insurers.)
- Use the Bureau’s online Licensee Look-up tool at www.maine.gov/insurance to verify that a broker or agent is licensed to sell policies in Maine, or call the Bureau’s Consumer Health Care Division (800-300-5000 or TTY Maine Relay 711) to do the look-up for you. Bureau staff can help with other insurance questions, as well.
- Contact the insurance companies offering plans in Maine. You can call the insurance companies directly to ask questions or buy your insurance. However, to have a subsidy applied, you must purchase your plan at www.healthcare.gov rather than directly from the insurance carrier. (See insurance company contact information on page 3.)
- Call Consumers for Affordable Health Care at 1-800-965-7476 (TTY:1-877-362-9570) for additional support in understanding your options, or visit www.mainecahc.org.

Open Enrollment

In general, you only can purchase individual insurance during Open Enrollment periods.

2019 Open Enrollment

Start date: November 1, 2018
End date: December 15, 2018

To have a new plan in place by 1/1/19 purchase a plan by 12/15/18.

If you are renewing your plan, see the Bureau’s publication about renewing.

Special Enrollment Period (SEP)

Even when Open Enrollment is closed, you can purchase a new policy if you do so within 60 days from experiencing one of these events:

- Loss of eligibility for other coverage (due to quitting a job or a lay off, a reduction in hours, loss of student health coverage upon graduation, etc.).
  
  Note: Loss due to failure to pay premiums does NOT trigger a special enrollment opportunity.

- Gaining a dependent (due to marriage, birth or adoption of a child, etc.).
  
  Note: Pregnancy does NOT trigger a special enrollment opportunity.

- Divorce or legal separation that results in loss of coverage.

- Loss of dependent status (for example, “aging off” a parent’s plan at age 26).

- Moving to another state, or within a state if you move outside of your health plan service area.

- Exhaustion of COBRA coverage.

- Losing eligibility for MaineCare.

- Income increases or decreases that change eligibility for subsidies.

- Change in immigration status.

- Enrollment or eligibility error made by the Marketplace or another government agency or somebody acting on behalf of the individual enrollee, such as a Marketplace Assistor.
