Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Harvard Pilgrim Health Care, Inc. ("Harvard Pilgrim" or the "Company") have been prepared in accordance with the National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual for statutory accounting principles ("NAIC SAP"), which do not differ from the accounting practices prescribed or permitted by the Division of Insurance of the Commonwealth of Massachusetts.

Harvard Pilgrim's net income and capital and surplus, based on NAIC SAP and practices prescribed and permitted by the Commonwealth of Massachusetts, are shown below:

	SSAP #	F/S Page	F/S Line #	2022	2021

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with NAIC SAP requires that management make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. The methods and assumptions used for making such estimates are reviewed regularly. Actual results could differ from those estimates. The claims unpaid liability, accrued medical incentive pool liability, valuation of investments, medical loss ratio rebate accrual ("MLR"), accrued retrospective premiums, premium deficiency reserves, and accruals for risk-sharing provisions under the Federal Affordable Care Act ("ACA") represent the Company's most significant estimates.

C. Accounting Policy

Real Estate, Furniture and Equipment

Real estate (including improvements), furniture and electronic data processing (EDP) equipment are carried at depreciated cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements: 20-40 years
 Equipment, furniture, and fixtures: 3-20 years
 Computer software and operating systems: 3-5 years

Amortization of leasehold improvements is calculated using the shorter of the asset's estimated useful life or related lease term.

Goodwill

Goodwill represents the amount by which the cost of acquiring an entity exceeds the book value of the acquired entity. Goodwill is amortized over the period in which Harvard Pilgrim benefits economically, not to exceed ten years and is charged directly to statutory net worth. Positive goodwill resulting from a business combination is included in the carrying value of the investment in the acquired entity in the statutory statement of admitted assets, liabilities and statutory net worth.

Retrospectively Rated Premium

Harvard Pilgrim sells health policies for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts. Any accrued retrospective premiums are recorded through premiums. Harvard Pilgrim records its liability for MLR rebates in aggregate health policy reserves based on the requirements of the ACA in accordance with SSAP No. 66, *Retrospectively Rated Contracts* ("SSAP No. 66"). SSAP No. 66 requires Harvard Pilgrim to accrue for the estimated amount of premiums to be returned retrospectively to an employer group or member as an adjustment to premium revenue. Harvard Pilgrim estimates the amount of the retrospective rebate based on the difference between the estimated MLR of each employer group segment as defined in the ACA, as of December 31st of each year, and the minimum MLR requirements for those employer group segments either under ACA requirements or individual state requirements, if the state has a higher MLR standard than the ACA. The Commonwealth of Massachusetts has set an MLR threshold of 88% for 2021 for the merged market segments as defined by Massachusetts state law. See Note 24.

Nonadmitted Assets

Certain assets, principally furniture, leasehold improvement, prepaid expenses, investment in unconsolidated subsidiary, past due premium, healthcare receivables, uninsured plan receivables, past due receivables from subsidiaries and affiliates, risk corridor receivables, EDP equipment and capitalized software in excess of the admissibility criteria are nonadmitted and, as such, are not included in statutory surplus.

Revenue Recognition

Premiums are recorded as revenue in the month for which members are entitled to service. Premium revenue collected prior to the month for which the member is entitled to service is recorded as premiums received in advance. Harvard Pilgrim's government contracts establish monthly rates per member, and there may be additional amounts due to Harvard Pilgrim based on items such as age, working status, or specific health issues of the member. The Center for Medicare & Medicaid Services ("CMS") has implemented a risk adjustment formula, which apportions premiums paid to all Medicare Advantage health plans according to the health status of each beneficiary enrolled.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

Assessments

In accordance with SSAP No. 35R, *Revised, Guaranty Fund and Other Assessments*, insurance-related assessments are recognized as liabilities when certain conditions are met. The assessments are recorded as administrative expenses, except for certain health related assessments which are recorded as a component of hospital and medical expenses.

Risk Sharing Provisions of the Affordable Care Act

Beginning in 2014, the ACA has included three programs designed to stabilize the health insurance market ("3Rs"): a transitional reinsurance program ("ACA Reinsurance"), a temporary risk corridor program ("Risk Corridor"), and a permanent risk adjustment program ("Risk Adjustment"). The Risk Corridor and Reinsurance programs ended in 2016.

Risk Adjustment

The ACA established a permanent risk adjustment program to transfer funds from qualified individual and small group insurance plans with below average risk scores to those respective plans with above average risk scores. Based on the risk of Harvard Pilgrim's qualified plan members relative to the average risk of members of other qualified plans in comparable markets, the Company estimates its risk adjustment receivable or payable and reflects the impact as an adjustment to premium revenue. Beginning with the 2018 benefit year, the ACA risk adjustment methodology incorporates a high-cost risk pool calculation, which adds a reinsurance element to the risk adjustment program which is referred to as high-cost risk pooling. The adjustments to premium revenue are calculated including the high cost risk pool aspect of this program.

(1) Cash and Cash Equivalents

Cash and cash equivalents include amounts on deposit with banks and government and corporate debt issues with original maturities of three months or less. Money market mutual funds registered under the Investment Company Act of 1940 and regulated under rule 2a-7 of the Act shall be accounted for and reported as cash equivalents.

(2) Bonds and Preferred Stock

Investments in bonds and preferred stock are stated at amortized cost or the lower of amortized cost or fair value based on their NAIC designation. Investments in bonds are primarily comprised of government and corporate debt issues and asset-backed/mortgage-backed securities. Realized gains and losses are determined using the specific identification method and are included in investment income. Investment income is reported net of expenses related to the management and custody of investments.

(3) Common Stock

Common stock includes the investment in equity securities, which are stated at fair value, and the investment in unconsolidated subsidiaries which is recorded using the equity method. For the insurance subsidiaries, HPHC Insurance Company, Inc. (the "Insurance Company") and Harvard Pilgrim Health Care of New England, Inc. ("New England"), the investments are carried at the statutory net worth of the subsidiaries. For the non-insurance subsidiaries, the investments are carried at the Generally Accepted Accounting Principles ("GAAP") equity of the investee. All changes to the carrying value of the subsidiaries are recorded as a component of unrealized gains and losses. Unrealized gains and losses are recorded directly to statutory net worth.

(4) Preferred stocks - Not Applicable

(5) Mortgage loans - Not Applicable

(6) Loan-backed Securities

Loan-backed securities are reported at cost upon acquisition, and amortization of premium or discount is calculated using the scientific method and recorded as an adjustment to investment income. These securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities.

(7) Investments in subsidiaries, controlled and affiliated entities - Not Applicable

(8) Other Invested Assets

Harvard Pilgrim invests in certain joint ventures and limited partnerships and reports the investments in accordance with Statement of Statutory Accounting Principles No. 48, *Joint Ventures, Partnerships and Limited Liability Companies*. These investments are included in Other Invested Assets on the balance sheet. All changes to the carrying value of these investments are recorded as a component of unrealized gains and losses which are recorded directly to statutory net worth.

Investment in Limited Liability Company

Harvard Pilgrim is the sole corporate member in a limited liability company, Harvard Pilgrim Health Care Institute, LLC (the "Institute"). The carrying value of this company is equal to its net equity based on generally accepted accounting principles, and is treated as an admitted asset reported as other invested assets in the financial statements in accordance with Statement of Statutory Accounting Principles SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies* ("SSAP No. 48"). All changes to the carrying value of the Institute are recorded as a component of unrealized gains and losses. Unrealized gains and losses are recorded directly to statutory net worth.

(9) Derivatives - Not Applicable

(10) Premium Deficiency Reserve

Harvard Pilgrim evaluates its health care contracts to determine if it is probable that a loss will be incurred. A premium deficiency loss is recognized when it is probable that expected future paid claims, administrative expenses, and reserves will exceed existing reserves plus anticipated future premiums on existing contracts. Anticipated investment income is not considered in the calculation of premium deficiency losses.

(11) Claims Unpaid, Accrued Medical Incentive Pool and Unpaid Claims Adjustment Expenses

Harvard Pilgrim records claims unpaid, for both reported and incurred but not reported claims, which are expected to be paid after year-end for services provided to members in the current year based on Harvard Pilgrim's claim experience. This liability includes the estimated cost of services that will continue to be rendered after year-end for which Harvard Pilgrim is obligated to pay for such services in accordance with contract provisions or regulatory requirements. The amount of the estimated liability is actuarially determined based on historical claims data, current membership statistics, cost and utilization trends, and other related information and considers expected losses, if any, on existing contracts. This liability is an estimate, which is subject to the impact of changes in claim severity and frequency, as well as numerous other factors. Accordingly, this estimate is continuously reviewed and, as adjustments become necessary, they are reflected in current operations.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

Harvard Pilgrim records an accrued medical incentive pool liability based on contractual arrangements with various health care providers. Compensation arrangements vary by provider. Hospital and medical expenses include claims payments, capitation payments, and various other costs incurred to provide and manage medical care provided to members, as well as estimates of future payments to hospitals and others for medical care provided to members in the current year based on Harvard Pilgrim's claims experience. Certain providers are paid on a fee for service basis and can be eligible for bonuses based on meeting prescribed quality performance measures. Harvard Pilgrim pays capitation under contractual agreements to a number of physicians and provider groups based on the number of enrolled Harvard Pilgrim members served by each physician or provider group. Certain providers have entered into risk-sharing arrangements with Harvard Pilgrim, whereby a settlement is calculated by comparing actual medical claims experience to a budgeted amount based upon contractual arrangements. These settlements are estimated and accrued during the period the related services were rendered and adjusted in future periods as final settlements are determined. Estimated settlements for these risk-sharing arrangements are reflected in the accrued medical incentive pool liability or health care receivables.

Harvard Pilgrim records a related unpaid claim adjustment expense ("CAE") liability to reflect the cost to adjudicate the claims unpaid as of year-end. The unpaid CAE liability is estimated as a percentage of the claims unpaid based on historical information on the administrative cost to adjudicate a claim.

(12) Harvard Pilgrim has not made material modifications to its capitalization policy from the prior period.

(13) Pharmaceutical Rebate Receivables

Harvard Pilgrim contracts with pharmaceutical manufacturers, some of which provide rebates based on use of the manufacturers' products by Harvard Pilgrim members. Harvard Pilgrim accrues rebates receivable on a monthly basis, which are included as a component of premium and health care receivables or uninsured plan receivables, based on the terms of the applicable contracts, historical data and current estimates. Harvard Pilgrim bills these rebates to the manufacturers on a quarterly basis. Harvard Pilgrim records rebates attributable to fully insured members as a reduction in medical costs.

25. Change in Incurred Claims and Claim Adjustment Expenses

A. Reasons for Changes in the Provision for Incurred Claim and Claim Adjustment Expenses Attributable to Insured Events of Prior Years

Reserves, net of healthcare receivables, as of December 31, 2021 were \$149.3 million. As of December 31, 2022, \$125.0 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years, net of health care receivables, are \$ 3.3 million. Therefore, there has been a \$21.0 million favorable prior-year development since December 31, 2021. The favorable development is generally a result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Harvard Pilgrim does not have any retrospectively rated policies.
