**1. Summary of Significant Accounting Policies and Going Concern**

A. Accounting Practices.

The financial statements of WellCare of Maine, Inc. (the "Company"), domiciled in the State of Maine, are presented on the basis of accounting practices prescribed or permitted by the State of Maine Department of Professional & Financial Regulation Bureau of Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Maine for determining and reporting the financial condition, results of operations, and cash flow of an insurance company for determining its solvency under Maine insurance law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Maine.

A reconciliation of the Company's net loss and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Maine is shown below:

B. Uses of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company's reserve for claims unpaid. Actual results could differ significantly from those estimates.

C. Accounting Policy

The Company uses the following accounting policies:

1. Cash and short-term investments are carried at cost, which approximates fair value. The Company holds no short term investments.
2. Investment grade bonds (NAIC designations 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except "make whole" call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designation 3 to 6) are carried at lower of amortized cost or fair value.
3. The Company holds no common stocks.
4. The Company holds no preferred stocks.
5. The Company holds no mortgage loans on real estate.
6. The Company has asset-backed securities carried at amortized cost. Adjustments are applied prospectively.
7. The Company had no investment interest in subsidiaries, controlled or affiliated companies ("SCA").
8. The Company had no minor ownership interest in joint ventures.

**ANNUAL STATEMENT FOR THE YEAR 2025 OF THE WellCare of Maine, Inc.**  
**NOTES TO FINANCIAL STATEMENT**

9. The Company holds no derivatives.

10. The Company reviews expectations regarding the profitability of contracts in force to determine whether a premium deficiency reserve ("PDR") is required. The Company does not consider anticipated investment income when calculating its PDR. The adequacy of reserve requirements is continually reviewed by management, with any reductions in the reserve being recorded as a beneficial effect in the statement of revenue and expense.

11. Unpaid losses and loss adjustment expenses ("LAE") include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

12. The Company did not modify its capitalization policy from the prior period.

13. The Company estimates pharmaceutical rebate receivables by assuming the proportional relationship between rebates and premiums exists for periods when actual rebates have been received.

D. Management does not have any substantial doubt about the Company's ability to continue as a going concern.

3. The Company did not have any OTTI to recognize based on cash flow analysis.

4. All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

**ANNUAL STATEMENT FOR THE YEAR 2025 OF THE WellCare of Maine, Inc.**  
**NOTES TO FINANCIAL STATEMENT**

1. Less than 12 Months	\$	1,579
2. 12 Months or Longer	\$	770,423

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	271,492
2. 12 Months or Longer	\$	4,215,846

5. For any security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not that the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual or regulatory purposes. If the security meets this criterion, the decline in fair value is OTTI and is recorded in earnings.

The Company does not intend to sell these securities prior to maturity; therefore, there is no indication of OTTI related to these securities.

For asset-backed and structured securities in an unrealized loss position, management further evaluates whether the collection of all cash flow is probable. Management utilizes the prospective adjustment method to evaluate the present value of future cash flow. For those asset-backed and structured securities (NAIC designated 1 or 2) where management has determined that collection of all contractual cash flow is not probable, the securities are considered other than temporarily impaired to the extent amortized cost is greater than the present value of future cash flow.
