A veterinarian licensed under this chapter whose scope of practice includes prescribing dispensing a benzodiazepine or an opioid medication to an animal is subject to the requirements of the Controlled Substances Prescription Monitoring Program established under Title 22, chapter 1603, except that Title 22, section 7254 does not apply.

2. Electronic prescribing. A veterinarian licensed under this chapter whose scope of practice includes prescribing a benzodiazepine or an opioid medication and who has the capability to electronically prescribe shall prescribe all benzodiazepine or opioid medication electronically by July 1, 2017. A veterinarian who does not have the capability to electronically prescribe must request a waiver from this requirement from the Commissioner of Health and Human Services stating the reasons for the lack of capability, the availability of broadband infrastructure and a plan for developing the ability to electronically prescribe opioid medication. The commissioner may grant a waiver for circumstances in which exceptions are appropriate, including prescribing...
outside of the individual's usual place of business and technological failures 2022 or when an electronic platform for prescribing is widely available for veterinarians if that occurs before July 1, 2022 as determined by the Commissioner of Health and Human Services. A veterinarian licensed under this chapter unable to comply with the electronic prescribing requirements of this subsection may request a waiver from the Commissioner of Health and Human Services for circumstances in which exceptions are appropriate as determined by the Commissioner of Health and Human Services.

3. Continuing education. By December 31, 2017, a veterinarian who prescribes a benzodiazepine or an opioid medication must successfully complete 3 hours of continuing education every 2 years on the administration, prescription and management of opioid medication controlled substances, including benzodiazepine and opioid medications, as a condition of prescribing a benzodiazepine or an opioid medication. The board may adopt rules to implement this subsection. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

4. Penalties. A veterinarian who violates this section commits a civil violation for which a fine of $250 per violation, not to exceed $5,000 per calendar year, may be adjudged. The Department of Health and Human Services is responsible for the enforcement of this section.
