NOTICE

Prescription Monitoring Program (PMP) Registration Requirements For Maine Licensed Prescribers

The Department has determined that participation levels among Allopathic Physician, Osteopathic Physician, Dentist, Physician Assistant, Podiatrist, or Advanced Practice Registered Nurse licensed in the State of Maine did not meet statutory participation requirements for the Prescription Monitoring Program. Specifically, fewer than 90% of practitioners were participating in the PMP as of January 1, 2014. As a result, all licensed individuals in the above disciplines must register with the Prescription Monitoring Program by March 1, 2014. See 22 M.R.S. § 7249(5).

To register, please go to the Prescription Monitoring Program website: <http://www.maine.gov/pmp> and download, complete and sign the [Registration Form](#) for prescribers and dispensers. Mail the original form to the address located on the form. Fax or email copies will not be accepted. More information is available for prescribers on the PMP website [For Prescribers](#) page. Any questions or inquiries should be directed to the PMP office by calling 207-287-2595 or email osa.ircosa@maine.gov.

For any technical or IT questions regarding your registration and log in, please contact our help desk at 1-866-792-3149 or mepmp-info@hidinc.com. Your cooperation is appreciated by DHHS/Office of Substance Abuse and Mental Health Services/Prescription Monitoring Program.
