2014
CERTIFIED VISUAL MEDIA PRODUCTION CREDIT
WORKSHEET INSTRUCTIONS

General Instructions

The certified visual media production credit is based on visual media production expenses, defined below. To claim the credit, a visual media production company must obtain a visual media production certificate from the Department of Economic and Community Development ("DECD"). For more information on how to apply for a visual media production certificate, go to www.filminmaine.com/incentives. The credit is available to corporations through Form 1120ME, available to individuals who are owners/members of pass-through entities and sole proprietors through Form 1040ME and available to trusts and estates through Form 1041ME. The credit is available only for the tax year during which the visual media production is completed.

Visual media production expenses are expenses incurred in Maine with respect to a certified visual media production for the following: expenses associated with preproduction, production and postproduction; construction costs; operations; editing and related services; music, photography and film processing, including transferring film to tape or digital format; sound recording, mixing and synchronization; lighting, makeup, wardrobe and accessories; transportation; food and lodging for cast and crew; insurance and bonding; rental of facilities and equipment, including location fees; and any other expenses incurred in Maine with respect to a certified visual media production not specifically excluded by law (5 M.R.S. § 13090-L).

Visual media production expenses do not include the following: marketing, advertising, printing or disseminating a visual media production; wages, salaries, commissions or any other form of compensation or remuneration paid to employees for personal services; payments made to temporary employee-leasing companies; payments made to performing artists; and contractual payments for the service of individuals working in Maine for which reimbursement was claimed under the certified visual media production reimbursement program (36 M.R.S., Chapter 919-A and Maine Form 841ME) or for which reimbursement could have been claimed but for the \$50,000 limitation.

In the case of pass-through entities (such as partnerships, LLCs, S corporations, and trusts), the partners, members, shareholders, beneficiaries or other owners are allowed credits in proportion to their respective interests in these entities.

Specific Instructions

Line 1. Enter the total visual media production expenses incurred, as described in the general instructions above. If you are an owner in a pass-through entity, enter on line 1 only that portion of the visual media production expenses that reflects your ownership percentage in the entity. This amount should be provided to you by the pass-through entity.
