### Instructions

**Estimated Payment.** Every fire insurance company or association that does business or collects premiums or assessments in Maine is required by statute to pay **1.4%** of the gross direct premiums for fire risks written in Maine, less the amount of all direct return premiums and all dividends paid to policyholders on direct fire premiums. The tax must be paid on an estimated basis at the end of each month, with each installment equal to at least 1/12 of the estimated total tax to be paid for the current calendar year. **Note:** the fire investigation and prevention tax applies in addition to the insurance premiums tax (see forms INS-1 and INS-4).

25 M.R.S. § 2399 requires the Maine Bureau of Insurance to determine every 5 years the basis percentage of fire risk allocated to each line of insurance. The last determination was made in October 2023 and applies to tax periods beginning on or after January 1, 2024. **Insurance companies and associations must calculate their estimated tax payment on the basis of the allocation rates below. Companies and associations may not calculate the tax on the basis of alternate ratios.**

**Interest & Penalty.** For calendar year 2026, the interest rate is 9%, compounded monthly. The penalty for failure to pay a tax liability timely is 1% of the outstanding liability for each month or fraction thereof during which the failure continues, to a maximum of 25% of the outstanding liability.
