SERVICE PROVIDER TAX REFUNDS

Service provider tax is imposed on the provider of the service, not on the consumer or customer of the service. The law allows the provider to pass the tax on the customer. If the provider includes the tax on a customer's bill, it must be shown as a separate line item and identified on the invoice to the customer as a "service provider tax."

A service provider may apply to MRS for a refund or credit of any overpaid or erroneously or illegally computed service provide tax. If the service provider separately stated the erroneously or illegally computed service provider tax on a customer's bill, no refund or credit will be given until the service provider has provided evidence satisfactory to MRS that the tax has been refunded or credited to the service provider's customer(s).

Customers of service providers that have had erroneously or illegally computed service provided tax collected from them <u>must</u> be credited or refunded the amount of erroneously or illegally computed service provider tax from the service provider. MRS will issue refunds of service provider tax <u>only</u> to service providers.

Please provide the following Documentation:

Additional information or documentation may be requested by Maine Revenue Services.
Any other pertinent information
Documentation proving that the service provider tax was paid to Maine Revenue Services.
Copies of all invoices and all credit memos provided to customers related to this refund request.
A cover letter, detailing the reason for the refund request and the period(s) of overpayment.
