

# Class A Introductory Course in Driver Education

## (Class C Vehicles)

**Requirements to provide the introductory course in driver education instruction to applicants for a Class A driver education instructor license.** A licensed Class A driver education instructor may be authorized by the Secretary of State to provide the introductory course in driver education for Class A driver education instructor license applicants required by [Chapter 9 Rules Governing Driver Education](#) §4, subsection 3 (A).

- A. **Requirements.** A person seeking authorization under subsection 8 must meet the following requirements:
- (1) The person must hold a bachelor's degree, have held a valid Class A driver education instructor license for the preceding three years, and taught at least five complete driver education courses; or
  - (2) The person must have held a valid Class A driver education instructor license for the preceding five years, and taught at least ten complete driver education courses; and
  - (3) The person must not have violated any statute or rule governing driver education or any condition or restriction placed on any license issued pursuant to these rules for which administrative or other enforcement action was taken within the last five years; and
  - (4) The person must complete an instructor preparation program as approved by the Secretary of State.

# Course Curriculum

**Minimum 45 hours for each "Part" to include 5 hours behind-the-wheel instruction  
Total course= 90 hours**

The introductory course in driver education for Class A driver education instructor license applicants must be based on the approved curriculum standards; include components in harassment prevention; and teaching students with special needs; and provide a minimum of 90 hours of instruction which includes five hours of behind-the-wheel training. The curriculum must be submitted to the Secretary of State, BMV-Driver Education unit, for review and approval.

A course instructor must provide the Secretary of State, BMV-Driver Education unit, in writing, notification of a driver education instructor course at least 10 days prior to the start of the course.

Any instructor authorized under this section must allow any interested person to enroll in a course to meet licensing requirements. The authorized instructor may assess a fee equal to the current tuition for a three credit course through the University of Southern Maine.
