## **Maine State Archives Educational Programs**

The Maine State Archives offers a variety of **educational programs** that can be tailored to your specific interest or research focus. Each presentation begins with a discussion of the necessity of a state archive and the different types of records in our holdings. The archivists will display and explain primary source documents and tailor the discussion to your region of the state. If you have a particular topic that you are interested in exploring with your class, just let us know! **To schedule a program, contact State Archivist Katherine McBrien at 287-5790 or [katherine.mcbrien@maine.gov](mailto:katherine.mcbrien@maine.gov).**

### ***Statehood for Maine***

This program looks at the reasons behind Maine's separation from Massachusetts and the process in which we formed our own state. Recommended for grade 4 and above.

### ***Malaga Island***

State Archivist Kate McBrien is a leading expert on the community who lived on Malaga Island. This 40-minute presentation and discussion explores the true history of the community who lived on Malaga Island, off the coast of Phippsburg, in the late 1800s. The program examines the individuals who were part of this community and the state's actions to evict them from their homes through the complex history of racism and eugenics in Maine.

### ***Maine in the Civil War***

This program explores the impact that Maine had on the Civil War and the impact the Civil War had on Maine. The presentation brings the topic to a local level, with accounts of people in your town or neighboring towns who contributed to or participated in the war effort. Recommended for grade 5 and above.
