<b>Schedule #:</b> 160 3#:Complaint Forms						
Forms made out by investigators who answer complaint concerning inhumanity to animals.	Paper	9/22/1975	Years 6	No Retention 0	Destroy	Current
<b>Schedule #:</b> 1771 15#:Stray Dog Claims and Spay/Neuter Reimbursement						
The records received by this agency are a record of application for payment, received from the animal shelters for the care of stray dogs and for the spay/neuter of stray cats and dogs. The records serve as an invoice to the department. Once received, the records are subject to verification with regard to the rules and statutory language pertaining to the claims (see attached documentation). Once the information is verified, they are entered into a database and a report is generated to produce payment. (Report attached.) These reports are generated on a monthly basis. The claims are then batched together and a copy of the invoice is stored with them. The claims are set aside in an archive box for storage.	Record Copy	4/27/2010	Years 1	0	Destroy	Current
<b>677BPC:Bureau of Agriculture, Food and Rural Resources - Board of Pesticides Control</b>						
<b>Schedule #:</b> 208 10#:Pesticide Application Reports						
Reports of applications of pesticides, giving type of pesticide used, area sprayed, dates of spraying, etc. These reports are filed with Board of licensed applicators.	Paper	10/5/1976	Years 5	No Retention 0	Destroy	Current

<b>Schedule #:</b> 1761      4#:Pesticide Registration						

# Department Series Report

## 1: Agriculture, Conservation and Forestry

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Records are retained to document that companies distributing pesticides have registered them in state as required by statute. The records are useful in the administration of the pesticide regulatory program to demonstrate compliance with state law. Pesticides may not be distributed or used in Maine unless they are first registered with the Board of Pesticides Control. The state pesticides registrar uses the records to track and document which products have been registered in the state for a particular year and the inspection staff uses the information to confirm that pesticide being used or sold in Maine are properly registered. Pesticide distributors and applicators use this data to assure that the products they are selling and using are legal for that purpose. A typical file by company would contain the pesticide product registration renewal forms and the applications to register new products.	Paper	3/3/2010	Years 1	0	Destroy	Current

**Schedule #:** 2188 8:Northeastern Forest Fire Protection Committee (Compact) Records

# Department Series Report

## 1: Agriculture, Conservation and Forestry

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>The Northeastern Forest Fire Protection Commission (commonly called the Northeast Compact) is the pioneer forest fire protection compact in the United States. The Maine Forest Service is a member of the Commission which was formed shortly after the devastating forest fires of 1947. This Compact was assembled to bolster fire suppression capabilities, as well as meeting training needs. The full membership meets each year during a week-long winter training/meeting session.</p> <p>Records include the articles and signatures of the signing dignitaries for the establishment of the 1949 Interstate Forest Fire Protection Compact. Due to its role in the establishment of the 1949 interstate compact on fire safety, the Forestry Department has deemed these records historically significant.</p> <p>These files are typically used six times per year as reference materials.</p>	Paper	7/20/2020	No Retention 0	No Retention 0	Archives	Current

### 670#:Bureau of Parks and Lands

Schedule #: 2034 1:Submerged Lands: Court Case Files

# Department Series Report

## 1: Agriculture, Conservation and Forestry

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>These files contain depositions, correspondence, interrogations, newspaper articles, harbor access studies, court decisions, appraisals, testimonies, permits and other relevant information to court cases related to the Submerged Lands Program. The court cases are related to denials of submerged lands leases for proposed projects, intertidal land use disputes, lease-rental fee disputes and the sale of submerged lands.</p> <p>These documents are used by staff from the Submerged Lands Program and the Bureau of Parks and Lands. These records must be archived because they contain legal decisions and supporting information such as harbor studies, surveys, economic analyses, alternative analyses, engineering and environmental studies or other important documents that may not otherwise be available in the courts. These court cases are specific to, and include, the State of Maine as both defendant and plaintiff. Submerged lands staff (and the Bureau) and the public are likely to refer to these records in the event other projects of similar scope are proposed in the same area. Although the legal decisions may be available elsewhere, the supporting information is likely to be available only within these records. A total of five (5) boxes of court cases will be archived as of September 2016.</p> <p>These records contain many materials including internal Bureau and AG documents, correspondence and studies that would not otherwise be available in the courts or elsewhere. We have scanned and saved these documents as PDFs and will be keeping them backed up as digital files. However, the archived documents provide an original record that substantiates the various court decisions specific to the State of Maine contained herein.</p>	Paper	7/5/2016	Years 3	Years 35	Archives	Current

<p><b>Schedule #:</b> 2034 3:Submerged Lands: Leases</p> <p>These files contain expired submerged lands lease. Leases are legal documents issued by the State of Maine to shorefront land owners that gives said landowner the right, title or interest to place structures such as piers, piles, floats, and submarine cables and pipelines on or over publicly owned submerged lands in coastal waters and Great Ponds. Leases contain a description of the submerged lands and structures under lease, ownership information and the terms of the lease. Leases are granted for a term of not more than 30 years. These files are used by staff from the Submerged Lands Program and the Bureau of Parks and Lands. These records need to be archived because they are legal documents that indicate a chain of right, title or interest to public property by a private entity. Submerged lands easements and leases are not recorded by county registry of deeds and are, therefore, not available elsewhere.</p> <p>These files are legal documents and provide a perpetual chain documenting the legal right, title or interest to certain submerged lands in the State of Maine.</p>	Paper	11/1/2016	Years 30	Years 5	Archives	Current

# Department Series Report

## 1: Agriculture, Conservation and Forestry

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>These records remain open and are updated annually. The Department of Agriculture, Conservation and Forestry is required to maintain a permanent current record of conservation lands in the Maine Conservation Easement Registry (MRS 33 c. 7 s. 479-C) in a form conducive to public dissemination of the information and must report to the Attorney General any failure of a holder of a conservation easement disclosed by the filing or otherwise known to the department. This task has been delegated by the Department to the Land for Maine's Future (LMF) program.</p> <p>Registrants are required to annually report for conservation lands that it holds (both fee and easement), the municipality, the approximate number of acres protected, the approximate number of acres that are exempt from taxation pursuant to Title 36, section 652 for which the municipality or county does not receive payments in lieu of taxes, and such other information as the department determines necessary to fulfill the purposes of 33 MRSA 479-C. Upon the establishment of this law, InforME was contracted for the development of a web-based registry that is used by conservation easement holders and conservation landowners to electronically upload their information. The record is an electronic database - there are no paper records generated or maintained. Records are to be used by the Maine Attorney General's Office to assist them in their ability to legally enforce an easement should a lawsuit against the owner of holder of the easement be brought to the courts. Occasionally, members of the public request data from the easement registry.</p> <p>The department is authorized to adopt a form of reporting that results in the creation of a geographic information system map layer that displays the information required by this section. The department shall maintain a permanent current record of these reporting requirements in a form conducive to public dissemination of the information and must report to the Attorney General any failure of a holder of a conservation easement disclosed by the filing or otherwise known to the department.</p>	Digital File	3/30/2026	Permanent or Indefinite	0	See Description	Current

These files are comprised of yearly progress reports sent to us by regional planning commissions. Their function is to describe the technical assistance they have provided to coastal towns within their region. There are also various town files that contain subdivision and shoreland zoning assessment forms and other miscellaneous information pertaining to the town within the regional planning commission region.	Paper	1/11/2017	Years 1	Years 5	Archives	Current
<b>Schedule #:</b> 2047      10:Growth Management Programs/Comprehensive Planning Assistance Grants						
This program is comprised of funds that are allotted through the state legislature. These funds are given out in the form of grants to towns to write comprehensive plans for towns. The Municipal Planning Assistance Program determines which towns receive money. Files contain general program correspondence, work plans, data information, contracts, payment requisitions, and subcontracts. A comprehensive plan is a statement of local policies regarding the type, location, amount, and time of the municipality's future development, and the natural and cultural resources to be conserved. The comprehensive plan designates "growth" and "rural" areas within a municipality.	Paper	1/11/2017	Years 3	Years 15	Destroy	Current
<b>Schedule #:</b> 2062      11:Environmental Reviews						
Review requests submitted to the Maine Natural Areas Program (MNAP) to determine if there are any botanical features that could be impacted by proposed development, within a given property boundary, or to determine if there are any botanical or zoological features within a given property boundary for forest management planning and/or for Natural Resource Conservation Service (NRCS) project planning. MNAP typically receives a request letter and a map for all of these review requests. Reviews are conducted using by digitizing project/property location, and include attribute information (e.g., consultant/forester, project type, "hits" and a list of botanical features within 4 miles of the project if relevant. Responses typically include letter, checklist, list of botanical features, and if appropriate, a map and are used for conservation planning in a variety of circumstances.	Paper	4/7/2017	Years 2	Years 8	Destroy	Current
<b>Schedule #:</b> 2290      12:Land for Maine's Future Annual Monitoring Reports						

# Department Series Report

## 1: Agriculture, Conservation and Forestry

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Annual reports are considered closed at the end of the calendar year the report is due. Records received late (for example, a record due in June of 2022 but received in March of 2023) would be considered closed on December 31, 2022, for the sake of record retention.	Mixed	12/11/2023	Years 15	No Retention 0	Destroy	Current
Annual Monitoring Reports are submitted annually to LMF and the appropriate Designated State Agency by Cooperating Entities who hold land(s) in fee or interest that was acquired in part with LMF funding. The requirement to submit Annual Monitoring Reports is captured in the LMF Project Agreement. These records provide LMF and the Designated State Agencies the information needed to monitor the management activities, per the Project Agreement. The annual monitoring report and any documents attached to this report (such as management plans) are considered part of this series.
