<hr/>						
Schedule #: 2316	54:Solid Waste Disposal Facilities					
The agency owns and operates landfills on behalf of the State to ensure that Maine has sufficient landfill disposal capacity. The records are kept to track ownership and operations of the facilities in the event that an environmental problem arises in the future. The records support the Waste Management and Recycling Program within the Bureau of General Services. The records are used by staff in overseeing the proper operations and by interested parties, abutters, municipalities and other governmental agencies and staff to monitor facility compliances and operations for the life of the facility and to monitor the facility after it is closed.	Mixed	8/13/2025	Contingent Upon Event - See Description	0	Archives	Current
<p>Records include monthly and annual reports on amounts and types of waste landfilled; copies of licenses and amendments for special wastes that have been approved for disposal; quarterly water studies and analyses; documentation of concerns from neighbors and host community; requests for property value offsets, and other items related to the siting, construction, and operation of the landfill. Records created within one calendar year will be retained at the agency then that year's records will be transferred to the Maine State Archives. Records in this series will continue to be created for monitoring purposes after the close of each facility until such a time as the agency deems unnecessary.</p> <p>Archival digital records will be retained by the agency until records are considered closed (1 calendar year) and have fulfilled their In Agency retention time. After the In Agency retention time is met, records will be transferred to LibSafe, the Maine State Archives digital preservation system. Archives will hold the "record copy" of the document and any agency copies will be considered reference copies.</p>						
<hr/>						
Schedule #: 2316	55:Landfill Site Documents					

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Documents generated in the course of landfill site research and selection will be maintained for the life of the landfill. Records will be retained at the agency for two calendar years then any records created within those two years will be transferred to the Maine State Archives. Records in this series will continue to be created for monitoring purposes even after the close of each facility until such a time as the agency deems unnecessary.	Mixed	8/13/2025	Contingent Upon Event - See Description	0	Archives	Current

<p>Schedule #: 1632 5#:METWP24</p> <p>METWP24 is a geographic information system database (or layer) that depicts political boundaries, common town names, and geocodes for Maine at 1:24,000 scale. In other words, it displays a map of the boundaries of cities, towns, plantations and unorganized townships. The coverage was created from USGS, 7.5 minute map series, town boundaries. The Maine GIS base layer COAST, which contains Maine's coastal Mean High Water (MHW) mark and Maine islands, was used in the development of METWP24. To correct mapping errors and reflect recent changes to Minor Civil Division (MCD) boundaries, arcs and polygons have been added to or updated in METWP24 from: photorevised USGS data; Maine GIS base layer coincident features; legal descriptions; GPS data; and Maine Department of Transportation (MEDOT) engineering plans. METWP24 contains USGS 1:100,000 scale data and U.S. Department of Commerce, Bureau of Census, TIGER Line Files 1990 and 2000 where these provide a more correct or best available representation of a coverage feature. The retention/disposition (starting June 30, 2005) is 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.</p>	Hard Disk	6/16/2005	Years	1	No Retention	0 Archives Current
<p>Schedule #: 1700 50:National Wetlands Inventory Polygons (NWI)</p>						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Abstract: NWI contains USFW (U.S. Fish and Wildlife Service) National Wetland Inventory polygon data for Maine at 1:24,000 scale, classified using the Cowardin system. This dataset is one of a series available in 7.5 minute by 7.5 minute blocks containing ground planimetric coordinates of wetland polygon features in Maine classified using the Cowardin System. For more information on the Cowardin System see L.M.Cowardin, et al, 1979 "Classification of Wetland and Deepwater Habitats of the United States". U.S. Department of the Interior, Fish and Wildlife Service FWS/OBS-79/31.</p> <p>http://www.nwi.fws.gov/Pubs_Reports/Class_Manual/class_titlepg.htm . NWI data are compiled from color infrared aerial photography and are digitized onto 1:24000 scale base maps by the U.S. Fish and Wildlife Service in St. Petersburg, FL.</p>	Hard Disk	3/7/2006	Years 1	No Retention 0	Archives	Current

Purpose:

The data provide consultants, planners, and resource managers with information on wetland location and type. The data were collected to meet U.S. Fish & Wildlife Service's mandate to map the wetland and deepwater habitats of the United States. Users must assume responsibility in determining the useability of this data for their purpose. Data at this scale is suitable for detailed studies and local planning. Not for use in scales greater than 1:24000. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.

Schedule #: 1700 51#:Contours

<p>Abstract:</p> <p>CONTOURS contains contour lines for Maine from USGS (U.S. Geological Survey) 1:24,000 scale quadrangles; in accordance with the source, units may be in feet or meters and intervals may be at 10 to 20 feet, or 3 meters. Additional supplementary contours exist on some of the quads. Due to the large number of arcs, elevation codes are spot checked from a representative sample. The data retains the edgematching discrepancies existing in the source.</p>	Hard Disk	3/7/2006	Years 1	No Retention 0	Archives	Current
--	-----------	----------	---------	----------------	----------	---------

Purpose:

The contours are useful for determining drainage, using with Arc/Info Grid module for hydrology studies, determining slope and delineating watersheds. If used in hydrology, care should be given to cellsize for modeling. It is recommended that in coastal plain areas, a cellsize of no more than 22.5 meters be used. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.

Schedule #: 1700 52#:Surficial Geology Polygons (SURF)

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Abstract: SURF contains statewide surficial geology map units for Maine at 1:250,000 scale. The Maine Geological Survey (MGS) developed the dataset which maps surficial geology map units from their Regional Surficial Geology maps published in 1987. The data for this coverage were digitized and coded from 1:250,000 scale mylars by the J.W. Sewall Co., in 1990, for the Maine Low-Level Radioactive Waste Authority (LLRWA). Some coding and edgematching errors exist. For a detailed description of the surficial unit types see the hardcopy map source "Surficial Geologic Map of Maine, 1985" available at MGS.</p> <p>Purpose: This digital geospatial data was developed for use by MGS in cooperation with other entities. Its primary purpose is to provide a digital base map of surficial geologic units for Maine. Detailed design decisions and confirmation for the characterization of features will require additional field work. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.</p>	Hard Disk	3/7/2006	Years 1	No Retention 0	Archives	Current

Schedule #: 1700 53#:Hydrography Polygons

<p>Abstract: HYDRO maps Maine lakes, ponds, rivers, perennial and intermittent streams, and coastline at 1:100,000 scale. Data for this coverage were compiled from USGS 1:100,000 scale digital line graph (DLG) files by J.W.Sewall Co. for the Maine Low-Level Radioactive Waste Authority in 1989. The USGS major/minor coding scheme is used in the coverage. Maine's 3-mile marine jurisdiction limit was added by MEGIS staff in 1992 to close the coastal water polygon for shading purposes. Codes have also been added to identify tidal rivers in Maine and Maine Department of Environmental Protection Water Quality Classes. In addition, IF&W's MIDAS (Maine Information Display and Analysis System) lake codes have been added for lakes greater than 10 acres.</p> <p>Purpose: Data for HYDRO were compiled from USGS 1:100,000 scale DLG files by J.W.Sewall Co. for the Maine Low-Level Radioactive Waste Authority in 1989. Codes have been added to identify tidal rivers; water quality classification and related records by MIDAS number, a unique four digit identification code for lakes. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.</p>	Hard Disk	3/7/2006	Years 1	No Retention 0	Archives	Current
--	-----------	----------	---------	----------------	----------	---------

Schedule #: 1700 54#:Coast and Marine Island Polygons (Coast)

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Abstract:</p> <p>COAST depicts Maine's coastline at mean high water, based on USGS 1:24,000 scale quadrangles. Some New Hampshire and New Brunswick coastlines are also included. Data for this coverage were digitized from the Mean High Water (MHW) line as shown on USGS 1:24,000 scale quadrangle maps. In addition, tidal rivers and ponds are also included in this coverage. The extent of tidal features was determined by a group of marine specialists familiar with Maine's coast. For rivers where the tidal extent was unclear the first contour or bridge crossing the river was used. Features which may be tidal but were connected to the coast by single line streams are not included in the coverage at this time. Codes for marine, tidal, and island polygons have been added, but may be incomplete at this time. In addition, students at the College of the Atlantic attached Maine State Planning Office, Coastal Island Registry Numbers (CIREG) to island polygons. Arcs contain codes describing coastline type, such as MHW, causeway, contour, or river mouth closure line. All 121 coastal quads are available at this time.</p>	Hard Disk	3/7/2006	No Retention	0	No Retention Archives	Current

Purpose:
 May be used as a basemap to show coastline, tidal rivers and ponds for mapping purposes. Data at this scale is suitable for use in local planning and detailed studies. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.

Schedule #: 1700 55#:Streams and Single Line Rivers (Streams)

<p>Abstract:</p> <p>STREAMS depicts single line streams of Maine from USGS 1:24,000 scale quadrangles. Some New Hampshire and New Brunswick features are also included. Data for this coverage were digitized from USGS 1:24,000 scale quadrangle maps by various contractors. Arcs are coded for perennial and intermittent stream types.</p>	Hard Disk	3/7/2006	Years	1	No Retention	0	Archives	Current
--	-----------	----------	-------	---	--------------	---	----------	---------

Purpose:
 STREAMS is a base map layer of single line streams at a 1:24,000 scale. Users must assume responsibility in determining the useability of this data for their purpose. Data at this scale is suitable for detailed studies and local planning. Not for use in scales greater than 1:24,000. Retain 1 year in agency, Archives on June 30th of each year unless not updated since previous June 30th.

E911RDS digital geospatial roads were developed, and are maintained, to serve the Enhanced 911 Project in Maine. In 1988, Maine voters approved the statewide deployment of Enhanced 911 service. Enhanced 911 has many public safety benefits. The two most important features are: the public's ability to dial 911 for all emergencies, and automatic caller location information critical to speeding up the dispatch of emergency services. Retain until updated or retired. The Maine Office of GIS (MEGIS) is working with the Public Utilities Commission (MEPUC) Emergency Services Communication Bureau (ESCB) to support a statewide implementation of Enhanced 911 service. MEGIS's role in this implementation is to provide technical assistance to towns that need to establish physical addresses. Physical addresses for participating towns are developed based on community-defined address intervals and road names applied to an updated set of digital roads. E911RDS data contains up-to-date road names and address ranges for participating Maine towns. In addition to its use in Enhanced 9-1-1 emergency services, this data is used for planning, utility, development and various other applications. Archives on January 1 and July 1 of each year unless not updated during interval.	Hard Disk	3/7/2006	Contingent Upon Event - See Description	No Retention	0 Archives	Current

Schedule #: 1712 101#:WETMGS							
WETMGS maps major wetlands in organized towns in Maine at a 1:50,000 scale. Data for this coverage were digitized from MGS 1:50,000 scale Fresh Water Wetlands maps by J.W. Sewall Co. for the Maine Low Level Radioactive Waste Authority in 1989. Wetlands shown on these maps were compiled from Maine Department of Inland Fisheries and Wildlife, U.S. Fish and Wildlife Service and Soil Conservation Service data sources in 1980-81.	Hard Disk	7/31/2006	Retain Until Inactive	0	0 Archives	Current	
This layer was produced from data collected during a statewide search for potential candidate sites for a low level radioactive waste facility. Source files included: maps, pre-characterization reports, engineered soil reports, slides and related correspondence.

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
The Board's final appeal decision resolves disputes between taxpayers and maine Revenue Services. The decisions will interpret Maine tax law and apply the law to specific factual situations. They provide persuasive precedent for the resolution of future disputes and will guide the Board in its future decisions on the same and similar issues. Keeping copies of these decisions helps to ensure fair and equal treatment of all taxpayers. Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status	
The Agency keeps these records to support the sales and use tax program. The records are used by various Maine Revenue Service employees and agents to determine the amount of use tax due at the time of registration by the Department of Motor Vehicles of a motor vehicle, trailer, truck camper, or other property. Use tax is imposed on the storage or use of tangible personal property in Maine, the sale of which would be subject to sales tax. Forms are reviewed by audit staff when conducting an audit of a taxpayer to determine whether the correct amount of tax was reported. A typical file contains a use tax certificate filed by an individual person.	Record Copy	2/5/2020 Years	6	No Retention	0 Destroy	Current

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Schedule #: 1787 110#:Real Estate Withholding</p> <p>The state of Maine requires a buyer to withhold state income tax when real property located in Maine is acquired from a non-resident of Maine. The REW-1 form is filed by the taxpayer or closing agent to report that withholding and is used by tax examiners to verify information about the seller, the property and the monies withheld. REW-5 form is a request for exemption or reduction in withholding of Maine Income Tax on the disposition of Maine real property. It is used by a Tax Examiner to evaluate whether or not a sales transaction might be exempt from withholding due to and expected loss on the sale or a gain so small that the full 2.5% withholding is not required</p>	Record Copy	11/8/2010	Years 5	No Retention 0	Destroy	Current
<p>Schedule #: 1788 111#:State Tax Exchange Information</p> <p>Maine is a signatory of the Uniform Exchange of Information Agreement, a bilateral agreement to share confidential taxpayer information between participating agencies (U.S. states, District of Columbia, Puerto Rico) for the purposes of tax administration only.</p>	Record Copy	6/9/2016	Years 7	No Retention 0	Destroy	Current
<p>Schedule #: 1789 112#:Confidential Tax Information Agreements for Contract Employees</p> <p>All persons, whether State government employees or a Contractor's employees, who may have potential access to confidential taxpayer information, are required to review the confidentiality policy and sign a Confidential Tax Information Agreement. This inventory pertains to the agreements signed by Contractor employees and employees of State agencies other than Maine Revenue Services.</p> <p>The records are used by Maine Revenue Services to enforce the laws of this state and the federal government pertaining to confidential tax information. The documents are audited by the federal Internal Revenue Service in the Safeguard Review which occurs every 3 years.</p> <p>The records are the actual Confidential Tax Information Agreements signed by the Contractor's employees.</p>	Record Copy	11/8/2010	Years 6	No Retention 0	Destroy	Current
<p>Schedule #: 1790 113#:Econometric Research</p>						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Tax revenues provide the funds to operate the State and all its programs. The Econometric Research Division looks at trends on where the revenues are coming from (income tax, property tax, sales & use tax) and uses that information to make forecasts on which the State's budget is based. Similarly, if proposed legislation may impact revenue by, for example, giving a tax exemption, the Econometric Research Division must prepare an analysis (fiscal note) with an estimate of how much revenue the State might lose if that exemption were to become law.</p> <p>These records consist of the data warehouse model runs, tax model runs, research materials and spreadsheets that are used to support the conclusions published in the legislative fiscal notes and revenue estimates. The data changes constantly, but it is important to know the methodology used to formulate the final reports and to maintain consistency.</p> <p>The final fiscal notes and revenue estimates are used by the Legislative and Executive branches of Maine State Government.</p>	Record Copy	11/8/2010	Years 5	No Retention 0	Destroy	Current

Schedule #: 1792 116#:Correspondence of the Taxpayer Advocate

<p>The Taxpayer Advocate is employed by Maine Revenue Services and reports directly to the Commissioner of Administrative and Financial Services. The Taxpayer Advocate's role is to assist taxpayers with any questions or issues involving the administration of Maine tax laws.</p> <p>These records consist of correspondence requesting information on taxation programs or assistance with taxation/compliance issues and have been referred to the Taxpayer Advocate of Maine Revenue Services for review and recommendation as to possible disposition. Some correspondence is addressed directly to the Taxpayer Advocate, but the majority is referred from the offices of Maine's Congressional Representatives, Senators, the Governor or other State agencies.</p> <p>The Taxpayer Advocate keeps copies of his written responses and any notes he made and/or found relative to the issue at hand. Sometimes, these copies and notes become part of the case file if the taxpayer has a compliance issue or has requested reconsideration of a tax assessment.</p>	Record Copy	5/12/2020	Years 6	No Retention 0	Destroy	Current

<hr/> <p>Schedule #: 1800 124#:Criminal Tax Investigations</p>						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Files contain evidence gathered as a result of conducting criminal tax investigations of Maine State tax laws. The evidence is used by Maine Revenue Services' Criminal Investigators and support staff, as well as the Maine Attorney General's Office, to support the State's burden of proof requirement in a criminal prosecution. Each file will typically contain evidence such as: Case summary reports and spreadsheets, court documents, Federal tax information and tax returns provided by the Internal Revenue Service, State tax returns, wage and earnings information, Department of Motor Vehicle records and bank records.	Mixed	6/16/2017	Years 7	No Retention 0	Destroy	Current
Retention begins from date of conviction. Includes all media types.						
Schedule #: 1800	162:Non-Criminal Tax Records					
Files contain information gathered for possible criminal violations of Maine Tax Laws that are NOT prosecuted. Each file will typically contain evidence such as: Case summary report and spreadsheets, court documents, Federal tax information and tax returns provided by the Internal Revenue Service, State tax returns, wage and earnings information, Department of Motor Vehicle records and bank records, both paper and digital files.	Mixed	6/16/2017	Years 6	No Retention 0	Destroy	Current
Retention begins from close date. Includes all media types.						
Schedule #: 1801	125#:Estate Tax					
When a person who owns Maine property dies, the State of Maine automatically places a lien on the decedent's Maine property. The estate must file an Estate tax return within nine months of the date of death in order to get the lien released. If the estate does not exceed the threshold, set by legislation, in assets, an Estate Tax form would be file din order to get the lien release. Tax years 2012 and prior file 706ME-EZ and 2013 and after would file 700-SOV. If the assets are over the threshold they would file the 706-ME, which starts with Federal Total Gross Estate and is used to figure any tax owed by the decedent's estate. When the tax liability is paid or estate has been found not liable, the Maine Certificate of Discharge of Estate Tax Lien is issued. 706ME-EZ, 700-SOV and 706ME are used by Tax Examiners and Tax Auditors to review the estate's financial records and determine what tax, if any, is owed before releasing the lien. Schedule #: 2259 32:Microsoft Exchange Server - Email Backup Tapes, 2008-2017						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status		
<p>Since early 2017, @maine.gov mailboxes reside in the Microsoft 365 cloud environment, and the Office of Information Technology (OIT), branded as MaineIT, no longer needs to make backup tapes. Recovering email from user accounts is easier through the Microsoft e-Discovery Center (for a small number of OIT technical staff, if a "cloud search" is authorized by the agency or the Attorney General's Office). The legacy backup tapes we are storing are from December 2008 - September 2017. Maine.gov email accounts are now hosted in the Microsoft cloud.</p> <p>The email backup tapes contain the sum total of every @maine.gov email account, from 2008 -2017. This means the tapes contain everyone's email about every subject from every State agency that uses @maine.gov email accounts. Therefore, the content doesn't belong to OIT, which is only the caretaker of the backup tapes. Content belongs to the agencies, and key stakeholders of interest are Maine State Archives (for historical records preservation of "capstone" officials) and the Attorney General's Office (for selective litigation hold preservation needs).</p> <p>Tape backups are a legacy backup method. Tapes have a limited lifespan in terms of technology needed to read the tapes as well as stability of the medium itself. There is concern in particular for the older tapes (as far back as 2008) as to how reliable the data would be if needing to be restored and readable.</p> <p>Email server backup tapes for 2008-2017 were taken daily, weekly, and monthly. For a nightly backup of the Maine.gov email domain, 4 backup tapes cover 12,000 people. OIT currently has stored at the Iron Mountain warehouse this volume, which is very large because of also keeping all the daily backups:</p> <ul style="list-style-type: none"> • 3,097 - daily backup tapes from 12/01/2008 - 12/06/2012 (older format, decommissioned system) • 1,845 - daily backup tapes from 08/17/2012 - 09/25/2017 ("newer" format, decommissioned system) <p>The normal rotation used by OIT for server backups is to keep the daily backups only 15 days (3 weeks of Monday-Friday), the weekly backups only 35 days (7 weeks of the Friday backup), and the monthly backups 12 months, unless held longer for specific litigation holds from the Attorney General's Office. For email server backup tapes, these all have been held since 2008-2017, exceeding the normal rotation just described.</p> <p>Any daily and weekly backup tapes from 2008-2017 will be destroyed. Monthly backup tapes will continue to be retained only if they are needed for the following: (1) Maine State Archives need to harvest "capstone</p>	Magnetic Tape	6/21/2022	Variable - See Description	0	No Retention	0	See Description	Current

Department Series Report

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>officials" email, or (2) Attorney General's Office litigation holds requiring retention of email as potential evidence. The 2008-2017 backup tapes would already have normally "aged out" - unless needed for the two purposes just described.</p> <p>Converted contents of selected agency "capstone" officials will be sent to State Archives as described above. After extracting selected agency "capstone officials" email from the backup tapes, and content is transferred to State Archives' future digital preservation system, then backup tapes will be destroyed. The only exception would be if particular tapes are needed by the Attorney General's Office for specific litigation holds.</p>						
<p>Schedule #: 2291 33:InforME Board Minutes</p>						
<p>Records close once minutes are approved and become official.</p>	Digital File	3/20/2026 Years	10	0	Archives	Current
<p>The InforME Board, as created by the InforME Access to Public Information Act, is a 17-member entity that combines government and private business interests, education and association representation, all focused on creating the policy that will drive this comprehensive gateway network. Board members include state agencies who are major data custodians, a representative from the University of Maine System, one member from a municipalities association, a non-profit organization advancing citizens' rights of access to information, and a representative from the libraries. Most Board members are appointed by the Governor, with the exception of one public member appointed by the state House and one by the Senate.</p> <p>Records in this series include agenda, minutes and any supporting documentation where applicable. See statute creating InforME at: https://legislature.maine.gov/legis/statutes/1/title1ch14sec0.html</p> <p>See InforME Board membership and duties at: https://legislature.maine.gov/legis/statutes/1/title1sec534.html</p> <p>See InforME Board meeting agendas and minutes at: https://www.maine.gov/informe/about/informe-board/meetings-minutes.html</p> <p>Archival digital records will be retained by the agency until records are considered closed and have fulfilled their In Agency retention time (10 years). After the in-agency retention time is met, records will be transferred to LibSafe, the Maine State Archives digital preservation system.</p>

Microfiche	3/16/2005	Variable - See Description	0	Years 60	Destroy Current
Schedule #: 1765 130#:1099 Tax Information						
1099s are tax documents. They are wage statements for vendors of the State of Maine which are verification of monies issued to vendors through the course of a given calendar year. Per IRS guidelines, tax documents should be held for 7 years. Typical files would include any returned undeliverable envelopes including 1099, any corrections collection forms, email, letter and telephone correspondence as well as spreadsheets and database queries. These documents are used for the purpose of tracking any changes or corrections via vendor contact. In the event that a vendor or auditor (including IRS) comes forth requesting information regarding the tax documentation, our office can verify if or when a change was made. In some cases, we may be required to recreate older 1099 information based on our data.	Record Copy	4/15/2010	Years	7	0	Destroy Current
Schedule #: 1766 131#:Financial Reconciliations						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
<p>Reports and work papers relating to the reconciliation of financial accounts. Examples include payroll, cash and budget vs. accounting reconciliations. These are used for the purpose of verifying information and balancing accounts. Reviewed by OSC staff as well as auditors. Reconciliations are compiled from financial information acquired through various sources and systems which may not be easily accessible if recreating. Reconciliations are done weekly, monthly, quarterly and yearly. Typical files would include reports from other computer systems, database queries, computations by staff, spreadsheets, financial documents (i.e. department/agency journal and payment vouchers and cash receipts) and email correspondence. Payroll and Accounting Related.</p>	Paper	3/2/2017	Years 7	No Retention 0	Destroy	Current
<hr/> <p>Schedule #: 1767 132#:Financial Information - Supporting Documentation</p>						
<p>The Financial Reporting Division creates records to support and assist with the production of financial reports. Examples of reports created include Annual Comprehensive Financial Report (ACFR), Schedule of Expenditures of Federal Awards (SEFA) and Budgetary Financial Reports. Supporting documentation is kept for state and auditing purposes, as well as support for future reports created. Auditing departments frequently have questions regarding where the report information originated and how it was compiled. A typical file includes correspondence and questionnaires between agencies and other entities, financial data received, as well as computations created by staff.</p>	Paper	7/29/2025	Years 4	Years 6	Destroy	Current

Schedule #: 989 7#:Subrogations						

Department Series Report

18: Administrative & Financial Services

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
When Risk Management Division makes payment to an insured for loss, the Risk Management Division takes over the insured's right to collect damages from any other person responsible for the loss. The Risk Management Division is "subrogated" to the insured's rights of recovery. The process of recovering is called "subrogation." In short, subrogation shifts the ultimate cost of a loss to the party most responsible for causing the loss. Files include: Automobile loss notice, accident information and related correspondence,	Paper	6/3/1992	Years 1	No Retention 0	Destroy	Current
