Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
The Department of Education keeps these vital school records because they are historical and legal documents about each school district in Maine. These records are used on a regular basis to review school district information. Members of the department's senior staff, members of the school funding team, and administrative staff use these records to retrieve information for both school districts and their legal representation. Typical items found in these files are historical items about how the districts were formed, school board member information, records of particular votes by the district, etc. Keep in agency until the Dept. of Education goes out of business; then transfer to Archives. <p>The Department of Education statutes Title 20-A, Section 6051(5) states that financial records and accounts shall be kept for 7 years after the end of the fiscal year and shall be available to the auditors and any other upon request. The Weekly Attendance and Time Distribution Reports for this department serve two purposes: (1) they report the amount of time worked by personnel, and (2) they represent the original backup source document of where the time was worked for various federal programs. The designated codes represent federal programs used by DOE Finance staff to charge salaries and wages of personnel who work on multiple activities or cost objectives based on actual time reported. DOE classifies these time distribution reports as financial records and accounts to support charges made to federal financial assistance programs. DOE plans to maintain these records for a period of seven years, two in the agency and five in the Records Center.</p>	Paper	1/5/2000 Years	2 Years	5 Years	Destroy	Current

These records contain the applications and annual reports for each school administration unit for per pupil professional development funds. These are funds the state makes available under Maine learning results legislation. The program manager for Title II-A Teacher Quality will need to refer to these records when approving funding for new applications. Because these applications and reports are used when determining the amount of funds to be awarded to school administrative units in Maine, a seven year retention period is required by Title 20-A, Section 6051 which states that financial records and accounts shall be kept for seven years after the end of the fiscal year and shall be available to the auditors and any other upon request.

### Description

Commission records of grant-making, contracting, and training or technical assistance carried out under grant awards from the Corporation for National and Community Service (CNCS).

Programs supported are: AmeriCorps, Volunteer Generation, Commission TTA, and other National Service supported activities.

MCCS is the state government entity that receives funding allotted/awarded to Maine under appropriations to CNCS. The funding is used by MCCS in accordance with plans and subgrants/subcontracts authorized by CNCS. In accordance with 45 CFR 2541.420 and 2541.360 plus a specific retention modification in CNCS grant terms and conditions, MCCS must retain the records for 3 years beyond the close of the award to MCCS unless an audit or other process is initiated. In the latter situation, the records must be retained for the 3 years plus any additional time covered by audit and resolution. Note on overall retention length: CNCS grants to the Commission have varying lengths, from a minimum of 3 years to as long as 9 years. While MCCS may close out subgrants and contracts in much shorter periods, the driving force in record retention is the federal award to the state.

Records are used by MCCS staff, Commissioners, auditors (federal and state).

99% of MCCS records are digital including the application to the federal agency and its award letter, both of which are extracted from the CNCS grant management system as PDFs and stored on the SOM-OIT server.

Typical content includes: Maine application for federal funds, CNCS award letter, Maine request for proposals for funds to be subawarded or subcontracted, selection process records, awarded contracts or cooperative agreements, performance reports, financial reports, monitoring reports, misc. correspondence with federal/state/sub representatives.

Records are retained in the agency 3 years after grant to Commission closed plus any period involved in audit resolution OR 4 years.

These records pertain to the work of the Maine Commission for Community Service (MCCS) itself – business meetings, strategic planning, research, official correspondence, membership, etc.								
MCCS is the state government entity that receives funding allotted/awarded to Maine under appropriations to CNCS. The The Commission was established in 1994 by Executive Order and under state statute in 1995 (5MRSA chapter 373, §7501 et seq). The 25 board members of the Commission are appointed by the governor to three-year terms and each represents a specific segment of Maine's volunteer sector. The 14 duties assigned can be summarized as building capacity and sustainability in Maine's volunteer and service communities by funding programs, developing managers of volunteers, raising awareness of sector issues, and promoting service as a strategy. These records document Commission actions and decisions related to fulfilling those duties..								
Records are used by MCCS staff, Commissioners, auditors (federal and state). They can also be used by the general public for information and research.								
99% of MCCS records are digital including Commission agendas, minutes, task force reports, publications, and correspondence..								
Typical contents includes: Agendas, minutes, committee reports, correspondence, strategic plans, task force work records, record of Commission appointments/service/membership, etc.
