

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
229#:						
Schedule #: 1125 14#: Brunswick to Boston Rail Initiative						
This record series is kept to facilitate the restoration of passenger rail service to Maine by providing a record of the project (tied to Federal Grant #FR-HSR-0005-10-01-00) as it develops. Included in these records are correspondence with government and transportation officials, information about proposed railroad stops along the route, correspondence with attorneys, invoices submitted by consultants, correspondence with other states, and files on Amtrak, the MBTA, Guilford Industries, the Federal Transit Administration, and the Coalition of Northeastern Governors, as well as contracts and consultant correspondence. Keep records in agency until project completed.	Record Copy	9/2/2011 Years	10 Years	10 Years	Archives	Current
<hr/>						
Schedule #: 1256 37#:Commissioner's Correspondence (Department of Transportation)						
Correspondence to and from the Commissioner of Transportation.	Paper	3/28/1998 Years	2 Years	0 Years	Archives	Current
<hr/>						
Schedule #: 1278 38A:Minutes of the Maine-New Hampshire Interstate Bridge Authority						
The Commissioner serves on the Board, currently is chairman. This is an ongoing series in the Commissioners Office. A typical file contains: a audited financial report and related correspondence. The Maine-New Hampshire Bridge authority was created by a U.S. congressional Act to build and maintain, with user tolls, a high level bridge on U.S. route 1 between Maine and New Hampshire. The toll bridge authority, as created, has the authority to carry on all work and to collect and administer revenues in support of this purpose. Both the Commissioner of Maine and New Hampshire has representation on this authority. The tolls have been taken off the bridge. The toll bridge authority no longer has a revenue stream but it still functions in administering maintenance on that bridge. Files include: minutes, agenda, financial reports and related correspondence.	Paper	6/17/1998 Years	2 Years	0 Years	Archives	Current
<hr/>						
Schedule #: 1278 38B:All other files of the Maine-NH Interstate Bridge Authority

Schedule #: 1303 39#:Railroad Crossing Maps

The agency retains this series because it is required by the Federal Railroad Administration. There is a Federal inventory of the number of railroad crossings in this State. These are maps of the crossing. They document every railroad crossing in the State.	Record Copy	11/15/2011	Contingent Upon Event - See Description	0	Years	0	Archives	Current
---	-------------	------------	---	---	-------	---	----------	---------

229E:Environmental Services

Schedule #: 1099 3#:Water Resources Studies

These files are kept to show that federal and state laws applying to water resources potentially affected by transportation-related structures, projects, reconstruction projects or plans are complied with. The typical file contains correspondence and chemical water testing documentation, and related correspondence.	Record Copy	9/1/2011	Years	10	No Retention	0	Destroy	Current
--	-------------	----------	-------	----	--------------	---	---------	---------

Schedule #: 1102 4#:Natural Resource Mitigation Project Files

<p>These records are compiled to document the process through which compensatory mitigation plans for transportation-related projects are developed, constructed and monitored, are necessary to show that the plans conform to federal and state regulations.</p> <p>The files typically contain notes, literature, mitigation plans, potential mitigation sites, regulatory information, consultant information. When DOT impacts wetlands, other agencies (DEP) may require DOT to repair or redo wetlands, this is called compensatory mitigation. Keep in agency for as long as we retain ownership of site.</p>	Record Copy	9/2/2011	Years	10	Years	0	Archives	Current

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Schedule #: 1162 1#:Well Claims The records in this series are kept to show how claims against the MDOT alleging contamination of water supply systems by the agency are processed and decided. The typical file may contain the following: claim forms; property information regarding claims; water analysis reports; investigative reports; letters to claimant/status claim; invoices; well driller information from wells were drilled; waterline installation information; and settlement agreements.	Digital File	11/28/2018 Years	20	No Retention	0 Destroy	Current
Schedule #: 1189 5#:Environmental Compliance Inquiries and Complaints Documentation of responses to environmental inquiries and complaints; letters; memos; maps; photographs and reports. Typical inquiry or complaint might come from a business on environmental impact of a road or highway, i.e. Atlantic Salmon Commission might inquire or complain about runoff from a highway on the salmon industry. Keep in agency until project closes plus 10 years.	Record Copy	9/2/2011 Years	10	No Retention	0 Destroy	Current
Schedule #: 1199 7#:Environmental Studies for Transportation Projects These records are kept to provide documentation that environmental responsibilities have been met for transportation projects as required by federal and state laws, regulations, guidelines and agreements. Typical files may include environmental impact statements; FHWA records of decision; environmental assessments; FHWA findings of no significant impact; environmental baseline reports; scoping meeting minutes; minutes of public meetings; wetlands findings; and threatened or endangered species reports; historic resources reports; archaeological resources reports; interagency coordination correspondence; and application/notification request. Keep in agency until 10 years after project closed to charges.	Record Copy	11/15/2011 Years	10	Years	0 Archives	Current
Schedule #: 1637 8#:Superfund, Investigation and Feasibility Study						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Program is to investigate the hazardous toxic waste sites in Maine with Maine DOT employees, consulting firms, EPA and Maine DEP. The investigation includes gathering of field data, testing, validation and reporting data to be used by Maine DOT, Maine DEP, EPA and other Federal and local agencies. The feasibility study uses the information from the investigation to determine feasible alternatives for potential clean-up and remediation. Files maintained in this series will ensure compliance with relevant State and Federal environmental regulations and administrative consent orders. The typical file will contain technical and administrative proposals, analytical test data; legal agreements; contracts; soil, bedrock, water and ecological assessment information; geophysical data; topographic survey data; public outreach information; financial expenditure data, and related correspondence.	Record Copy	9/2/2011 Years	60	Years 0	Archives	Current
<hr/>						
Schedule #: 1637	9#:Superfund, Investigation and Feasibility Study - Callahan Mine					
Callahan Mine Superfund Site - Brooksville Maine: Project is directed toward addressing legal and regulatory requirements established between the State of Maine and the US Department of Justice and US Environmental Protection Agency. Efforts center on investigating and assessing environmental site conditions; evaluating human health and environmental risks and developing appropriate remedial strategies to ameliorate adverse impacts to onsite soil, surface water and groundwater. All relevant date and information generated as part of the Callahan Mine site studies must be maintained for extended periods of time as mandated by state and federal environmental regulations and court-ordered consent agreements.	Paper	9/24/2015	No Retention	0	No Retention 0	Archives Current
<hr/>						
229A:Internal Audit						
Schedule #: 967	1#:DOT External Audit Workpaper Files					
DOT audits of external agreements/contracts made with third-party recipients such as consultants, municipalities, railroads, utilities, etc., to determine if these recipients have complied with applicable Federal/State laws and regulations in the administration of related programs. These workpapers serve as support to the results of the audit, and document the audit report.	Record Copy	9/6/2011 Years	10	No Retention	0	Destroy Current
<hr/>						
Schedule #: 967	2#:DOT Internal Audit Workpapers					

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
DOT audits of internal operations that determine whether the Department has complied with applicable Federal and State Laws/regulations. These workpaper files serve as documentation of DOT's activities in relation to the above, some of which are included as part of the State's Annual Single audit which is completed in accordance with the Federal Single Audit Act of 1984. The files consist of the following categories: (1) Audit Reports; (2) Audit Management (assignments/supervisory review); (3) Preliminary Reviews (prior reports, questionnaires, interviews, universes of costs, etc.); (4) Audit Program; and (5) Audit Testing & Verification. These are the actual workpapers that support the audit report.	Record Copy	9/6/2011	Years 10	No Retention 0	Destroy	Current
<hr/>						
229L:Legal Services						
Schedule #: 175 4#:Abstracts of Title						
Cover sheet, title chain, schedules, abstract sheet, encumbrance sheets and plans.	Mixed	5/19/2015	Years 50	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 933 6#:Vehicle Accident Report						
If state vehicles are involved in accidents, a report is sent to DOT Legal. Files include: copy of State Policy, accident report.	Mixed	7/13/2018	Years 10	No Retention 0	Destroy	Current
Media (MX) includes all file types.						
<hr/>						
Schedule #: 933 8#:Guardrail Claims						
When an accident occurs and a guardrail is damaged. Files include: police report; pleading; correspondence. The driver of the vehicle who damaged the guardrail is instructed to pay. Retention begins when case closes.	Mixed	7/13/2018	Years 10	No Retention 0	Destroy	Current
Media (MX) includes all file types.						
<hr/>						
Schedule #: 933 9#:Potential Torts						
Notice of intent to file a claim against the state. Files include: investigation report and related correspondence. These files are potential torts and settled out of court. If a case goes to court it is considered an actual tort and filed under a different series: Torts (DOT).	Mixed	5/19/2015	Years 10	No Retention 0	Destroy	Current

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Schedule #: 1955 18#:Real Estate Transactional Documents						
Documents related to the Department's involvement in non-eminent domain real estate transactions, including purchase and sale documents, leases, licenses, operating agreements, and memoranda of agreements, and all associated correspondence thereto. Retention begins when case is concluded. (60 years then destroy)	Mixed	3/16/2015	Years 60	No Retention 0	Destroy	Current
Schedule #: 2258 19:Legal Binder - Title Binder						
This type of file is a collection of deeds, maps and title report memos summarizing the ownership history of a particular piece of state-owned property. The research to build these files is usually complex and would be incredibly difficult to recreate with confident accuracy. It differs from a standard title report because a title report can generally be replicated by performing a simple title search in the Registry of Deeds, but certain state property histories are challenging to recreate because the researcher would need to review thousands of registry documents where the State of Maine is a party to narrow the search down to one precise location. The binder also includes records of easements, conditions, leases, and other documents that can affect the title to the property and the legal limitations on how the property can be used - some of which are not recorded and can be difficult to track down. It has enormous value to the Department but is not likely something that anyone outside of MaineDOT would care about. Keep in agency until no longer needed for business.	Mixed	9/9/2022	Contingent Upon Event - See Description	No Retention 0	Destroy	Current
Schedule #: 2258 20:Legal Binder - Closing Binder						
When MaineDOT is involved with a highly complicated real estate transaction, a closing binder is usually prepared. The file includes all signed agreements, deeds, releases, easements, leases, and other transactional documents that affected the closing- some of which are not recorded - It is not terribly uncommon for us to have complex transactions with closing binders that are hundreds of pages long. Some examples are purchases of railroad corridors, ferry terminals, and train stations. These binders often also include records documenting how certain financial issues were handled - a topic that comes up regularly when we convey property that was purchased with the use of federal funds. These types of documents are referred back to often by the legal division as a valuable tool when conducting other similar closings and are appropriate to retain for a sixty-year period.	Mixed	9/9/2022	Years 60	No Retention 0	Destroy	Current

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
229P:Policy Analysis						
Schedule #: 1152 1#:Highway Cost Allocation Study						
These files are kept as records of the conduct of highway cost allocation studies and include vital information about the way the analysis proceeded in each study. Both qualitative and quantitative data involved in the analysis are included. These data will provide useful background information for future highswy cost allocation studies which are conducted on a periodic basis. A cost allocation study determines who benefits most from a particular road and who should pay what percentages in taxes for the road. Retention begins from completion of study.	Digital File	11/28/2018	Years 17	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 1152 2#:Policy Initiative Files						
These files are kept as records of policy initiatives undertaken by the Office of Policy Analysis on behalf of the Commissioner of Transportation and of initiatives taken by the Director of the Office of Policy Analysis as a participant in national transportation organizations such as the American Association of State Highway and Transportation Officials and the National Governors' Association. The files contain letters, memoranda, and other materials pertaining to these initiatives.	Digital File	11/28/2018	Years 10	No Retention 0	Destroy	Current
<hr/>						
231#:Finance & Administration						
Schedule #: 1098 10#:Department of Transportation Building Files						
These files document the construction and maintenance of the DOT building and are kept as a historical record and for reference, and as a guide to maintaining the building. Records include contracts and payments contractors for electrical work, air quality improvements; signing; lights; carpets etc. Keep in agency until building no longer stands.	Paper	5/5/1994	Contingent Upon Event - See Description	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 1098 8#:Administrative Policy Memoranda						
These files are kept as a record of DOT administrative policy. Files include supporting documents, research information, and final copy of departmental Administrative Policy Memoranda. A copy of the Administrative Policy Record will come to the Archives as updated. Keep in agency until updated.	Paper	5/5/1994	Contingent Upon Event - See Description	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 1098 9#:DOT Insurance Files						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
These files are kept to provide a record of DOT's insurance coverage. Files include insurance bills, policies and endorsements for all DOT leased equipment, buildings, boilers, ferry piers, personal use or state vehicles, and liability insurance information. Keep in agency 2 years after expiration.	Paper	5/5/1998 Years	2	Years 0	Destroy	Current
<hr/>						
Schedule #: 1308 21#:Work Orders of the Department of Transportation						
This series is maintained because of pertinent information contained in the work order. It deals with certain projects done by the M.D.O.T. All work done in the field is done by work order. These work orders are proof of money spent and jobs completed.	Paper	3/17/1999 Years	7	Years 0	Destroy	Current
<hr/>						
Schedule #: 1308 24#:Miscellaneous Administrative Services Division Files						
This series represents a group of records created from a variety of miscellaneous duties assigned to the Division. Examples of records include proposals; copies of memos, lease agreements; and Maine State Employees Combined Charitable Appeal.	Paper	3/17/1999 Years	5	Years 0	Destroy	Current
<hr/>						
234#:Maintenance & Operations						
Schedule #: 54 1#:Overlimit Permits						
3 part form with original going to applicant for overload permit on state highways. Yellow copy or second copy comes to Augusta Office from Divisions or Augusta itself, to check money deposited. Pink copy remains with issuing division. The majority of permits are issued in the Augusta Office. The issuing copy or pink copy in division is minimal.	Paper	12/10/1974 Years	2	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 54 2#:Road Opening Permits						
Road opening permits needed for breaking pavement by individuals or utility companies for utility service. Original given to seeker of permit. One copy retained by Maintenance and third copy sent to supervisor who will repair road. Supervisor returns copy to office stating cost of work performed. Individuals or Company billed for difference in price if any. Paid invoices retained in file.	Paper	12/10/1974 Years	6	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 90 4#:Permits, Utility Location						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Copy of permits for installation of facilities by utilities along DOT right of way throughout State. Contains permits, applications for permit, maps, sketches, and correspondence relating thereto.	Record Copy	11/15/2011	Years 60	No Retention 0	Destroy	Current
Schedule #: 124 10#:Town Aid Programs						
Documentation relative to money allocated and expended with sufficient detail indicating location and scope of work. Correspondence and agreements detailing future liabilities and obligations of the state.	Paper	7/25/1975	Years 6	Years 5	Archives	Current
Schedule #: 124 11#:Snow Removal Contracts						
Annual contracts whereby DOT reimburses towns for their winter maintenance activity according to current statutes.	Paper	7/25/1975	Years 4	No Retention 0	Destroy	Current
Schedule #: 1100 15#:Weather, Roads, and Temperature Reports						
These are minute-by-minute records of who calls whom on the radio, and what was said, including reports of accidents and other events. The records are especially important as a reference for the DOT Legal Division. Maintain in agency for 10 years.	Record Copy	9/6/2011	Years 10		Destroy	Current
Schedule #: 1168 18#:Draw Bridge Opening Reports						
These files consist of monthly records of bridge openings. Each bridge in the state that is opened to allow the passage of bridge traffic has a bridge tender who compiles these records and submits them to the DOT. The reports are used to assess the frequency of openings, which is helpful in determining staffing as well as in planning for new bridges. The reports also provide a record of boat traffic at each bridge site.	Paper	8/14/1995	Years 5	No Retention 0	Destroy	Current
Schedule #: 1301 23#:Railroad Track Maps						
The records are 1916 railroad track maps that are used in research activities by our office personnel and others outside the office to obtain historical information (surveyors, town officials, attorneys etc.) Keep in agency until no longer needed for business then release to Archives.	Record Copy	9/6/2011	Variable - See Description	No Retention 0	Archives	Current

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Schedule #: 1305 21:Striping Done to Roads and Highways Throughout Maine						
To keep track of all striping State wide on a yearly basis. Files include: Lab test results on paint; crew paint averages; where crews have painted stripes.	Digital File	11/28/2018	Years 8	No Retention 0	Destroy	Current
Schedule #: 1306 32#:Transportation Rest Area Logs and Maintenance Records						
These records track maintenance and supplies of Rest Areas along Maine roads.	Paper	1/13/1999	Years 5	Years 0	Destroy	Current
Schedule #: 1325 28:Special Exemption Certification for Travel on Restricted Roads						
These records are used to keep track of private companies that have permission to cross posted roads. Maine law enforcement uses these files to help enforce the weight limit laws. Files contain make and year of vehicle, registered gross weight, commodity transported, registration number, vehicle I.D. number, empty weight and owner of truck. Certification is on a day by day basis.	Paper	4/23/1999	Years 1	Years 0	Destroy	Current
Schedule #: 1325 29:Exemption Certification for Travel on Restricted Roads						
These records are used to keep track of private companies that have permission to cross posted roads. Maine law enforcement uses these files to help enforce the weight limit laws. Files contain make and year of vehicle, registered gross weight, commodity transported, registration number, vehicle I.D. number, empty weight and owner of truck. This certification is good for the life of the vehicle.	Paper	4/23/1999	Years 3	Years 0	Destroy	Current
Schedule #: 1325 30:Entrance Permits						
These files contain a record of entrances onto State Highways and State Aid roads within the division per Maine Revised Statutes Title 23, chapter 13, Section 704. They are used when researching drainage information and when a new permit is required because of change of use. File contains highway opening permit, original application, sketch of the entrance, and original documentation from applicant. Keep in agency until no longer needed for business.	Record Copy	9/6/2011	Contingent Upon Event - See Description	0 Years 0	Destroy	Current
Schedule #: 1356 33:Motor Transport Service AssetWorks M5 Reports						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status		
This series is for work done on work orders, charges to vehicles, and monthly charges to other bureaus in DOT. It keeps track of the inventory of stock and the movement of stock at MTS locations. This is an internal accounting and electronic inventory system for Motor Transport Service, including work orders, monthly overheads, cyclic account, stock variance report, goods received, and stock transfers. Keep until updated.	Digital File	6/25/2019	Destroy When Updated	0	No Retention	0	Destroy	Current
<hr/>								
Schedule #: 1403 34:Site Inspections of DOT Maintenance Garages								
Environmental and safety audits of the Maine Department of Transportation's maintenance garages and sites that are under the authority of the Bureau of Maintenance & Operations. Files contain evaluations of environmental and safety audits of corrective action requests. Also included in the files, and pertaining to environment and safety, are: memoranda, to do lists for auditing teams, monthly safety reports from Maintenance and Operations Division, general information regarding hazardous chemicals, environmental and safety meeting agendas, reports and reviews of site safety procedures and audit schedules.	Digital File	11/28/2018	Years	10	No Retention	0	Destroy	Current
<hr/>								
Schedule #: 1636 35#:DOT Driver Certification Files								
These driver files are maintained on behalf of DOT and support the Driver Trainer program. These files contain driving histories of DOT drivers, including Motor Vehicle records, driving violations, accident information, certification applications, request for operator training, notification of license, driver trainer test reports, and a record of the operator's certifications. These files are pertinent to DOT operators, the information is used by the driver trainers and management. All the operators files contain personal information, such as social security numbers, driver's license numbers, home address, birth date, date of hire. Every time an operator gets a new certification, his chart is updated and the new test scores and certification applications are added to his folder. The Driver Trainers use the files as a check on all DOT operators certification records. The retention period begins when the driver retires or otherwise separates from State service.	Record Copy	9/6/2011	Years	10	No Retention	0	Destroy	Current
<hr/>								
Schedule #: 2257 36:Traffic Counts								

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Traffic counts provide information regarding the number of vehicles per day, the hourly breakdown, travel patterns and, for some locations, the types of vehicles using the road network. This information is utilized by municipalities, consultants, the general public and throughout the Department to supply data for project prioritization, Federal allocation formulae, maintenance prioritization and planning, geometric and structural design calculations for bridges and highways, NEPA compliance studies, Federal Functional Classification, work zone safety planning, highway crash rates, development permits, revenue forecasting, transportation system planning, VMT computations and system performance measurements.	Digital File	6/24/2022	Years 60	No Retention 0	Destroy	Current
387#:Pilotage Commission, State						
Schedule #: 586 92#:Licensee Files - Maine Pilotage Commission						
Applications, bond, renewals, copy of Federal license, doctors certificate of health, related correspondence. Used to license pilots. Records will be stored digitally in TEDOCS until 30 years after expiration.	Digital File	12/2/2019	Years 30	No Retention 0	Destroy	Current
Schedule #: 586 94#:Minutes of Meetings - Maine Pilotage Commission						
Meetings to discuss and dispose of Commission business. Meets twice a year.	Digital File	12/2/2019	No Retention 0	No Retention 0	Archives	Current
232#:Planning						
Schedule #: 773 1#:Traffic Accident Reports						
Accident history is used in many phases of highway work. It is included in the areas of planning, project development, design, maintenance, operations and research. It is also instrumental in carrying out the Dept.'s Highway Safety Improvement Program. Accident records are also used to provide information to various Federal, State and Local Governments and the private sector.	Record Copy	9/6/2011	Years 60	No Retention 0	Destroy	Current
Schedule #: 1006 2#:Planning Studies						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
These files contain traffic planning data used for justification or non-justification of highway or bridge projects. Data contained in these files are used to evaluate future projects or re-evaluate the same projects. Included in these files are all calculations, correspondence and back-up data. Type of records include: traffic counts, turning movements, trip tables; traffic assignments, technical memos, and projections; economic studies - cost benefit analysis and related correspondence.	Paper	9/30/1992 Years	10	Years 40	Destroy	Current
Schedule #: 1032 3#:Traffic Data Base Maps						
The statewide traffic data base is a system of rural county maps with annual average daily traffic volume plotted on them. These maps are continually updated and retained in the Bureau of Planning. Keep in agency until updated.	Paper	3/18/1993 Destroy When Updated	0	No Retention	0 Destroy	Current
Schedule #: 1032 4#:Rural & Urban Node Reference Maps						
Rural & Urban node number reference maps provide Transportation Intergrated Network Information System (TINIS) users with a visual key to Maine's highways. These flat files are for maintaining copies of the mylar master node reference maps for distribution to various department Bureaus, State law enforcement agencies, municipalities and other users of TINIS. Keep in agency until updated.	Paper	3/18/1993 Destroy When Updated	0	No Retention	0 Destroy	Current
Schedule #: 1036 5#:Traffic Planning Reports						
These files contain reports summarizing: traffic planning studies; comprehensive traffic studies; bridge studies; benefit/cost analyses; economic studies, etc. These reports, published by MDOT Bureau of Planning, and other private consulting firms, are of historical significance and are used for reference purposes.	Paper	4/27/1993 Years	20	Years 30	Destroy	Current
Schedule #: 1309 6#:Highway Safety Improvement Program						
These files contain data for the justification or nonjustification of highway/bridge projects.	Paper	3/18/1999 Years	10	Years 0	Destroy	Current
Schedule #: 1309 7#:Town files (Correspondence between towns and the Department of Transportation)						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
These files are correspondence letters between the town and MDOT concerning transportation issues. Investments by DOT in town roads and other projects are correspondence intensive. We need to keep this correspondence in the agency for reference.	Mixed	6/9/2022	Years 60	No Retention	0	Destroy Current
Paper records will be scanned and retained electronically for 60 years.						

Schedule #: 1635 9#:Straight Lines - Rural & Urban Roads Project History

Tracks projects to build or alter rural and urban roads throughout Maine. Supports the State Highway system and tracks the treatment (surfacing substance) on the roads, and provides a project history for each road. Used whenever a town requests road construction history/information. Also used by project planners and community service programs, both within State government and municipalities. The information in these files covers each road in every county, with some projects going back to the 1930s. This information in this combination is unique, and can only be found here. These files are the only complete documentation of all projects done on each road in each county within the state of Maine.	Paper	9/2/2005	Years	100	0	Destroy Current

<hr/>										
Schedule #:	647	8A:Deed/Document File								
Recorded deeds, documents, town agreements of various types, occas. maps and other legal documentation, e.g. wetlands permits, leases, special use permits, airport and waterways records.			Paper	5/8/2014	Years	50	No Retention	0	Archives	Current
<hr/>										
Schedule #:	647	8B:Deed/Document File - Railroad Decrees								
Maine DOT keeps these records because the decrees document the conditions under which rail road crossings have been established throughout the state. Most of these crossing still exist, and when issues come up about upgrades and safety issues, it is imperative for us to review the original decree to establish the baseline conditions that must continue to be met if the crossing is to remain in place. The requirements set forth in these decrees arise from information and testimony presented to the hearing officer at a public hearing, and the decrees preserve vital facts concerning the public purpose of each crossing, the safety concerns that need to be addressed, and the ongoing requirements concerning signals, warning signs, gate operations, etc. A typical file should have the public hearing transcript, any information presented for the record by the applicant for the crossing and/or the railroad, and the decree itself.			Paper	5/8/2014	Years	10	No Retention	0	Archives	Current
<hr/>										
Schedule #:	648	9#:Official Business Directional Signs								
Permit cards and node cards relating to a system of highway business directional signs (as mandated by law, Title 23, Sec. 1901-1925). Permits are issued for both reflective and nonreflective signs. Files are maintained as active (current) or inactive. Retention period begins when file become inactive through nonrenewal.			Paper	11/18/1987	Years	3	No Retention	0	Destroy	Current
<hr/>										
Schedule #:	796	10#:Acquisition Files (Right of Way)								
Acquiring public or private land for highway purposes. File may include the Parcel Package and/or Relocation Package which are made up of: Appraisal, offer forms, acceptance forms, litigation, condemnation, check stub and related correspondence.			Digital File	6/9/2022	Years	60	No Retention	0	Destroy	Current
<hr/>										
Schedule #:	969	12#:Highway Noise Report Documents								

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Location & site plans, traffic data, STAMINA & OPTIMA outputs, noise regulation documents, noise study reports, misc. related correspondence, cost estimates, field data, written complaints, activity logs. The Location and Survey unit conducts special studies on air and noise control problems raised by abutting highway residents. OPTIMA & STAMINA are computer programs used to predict noise levels.	Paper	6/25/1996 Years	10	No Retention	0 Destroy	Current
Schedule #: 984 13#:Survey Books - Class 3						
Payroll, Final Quantities, Borrow Pit and other misc. books of Highway, Bridge Projects. Keep in agency 3 years after final voucher. These job records are kept by investigator for payroll purposes. Have utilities been hooked up, has trash been hauled off, etc. Keep in agency 3 years after final voucher.	Paper	12/1/2014 Years	3	No Retention	0 Destroy	Current
Schedule #: 984 14#:Survey Books - Class 2						
Inspector's and Resident's diaries of Highway/Bridge Projects. Keep in agency 3 years after final voucher. These are resident notes on what happens on a job. If an accident occurs these files may have to be referred to. A resident is usually an engineer from DOT who oversees a job. Keep in agency 3 years after final voucher.	Paper	4/29/1992 Years	3	No Retention	0 Archives	Current
Schedule #: 984 15#:Survey Books - Class 1						
Surveyor's field books containing: Traverse, Survey line Construction line, Preliminary (original) Cross Sections (X-Sects), Final Cross Sections, Drainage, Utilities, Control Survey Description books. These contain data to reproduce critical alignment and property markers, only referenced on the Construction and ROW plans, thus providing value to both the State and Public interests. Keep in Agency for 3 years after final voucher.	Paper	12/1/2014 Years	3	No Retention	0 Archives	Current
Schedule #: 1145 19A:R & D Problem-Solving Projects - Project Documentation						
Problem-solving requests are generated in-house by staff who hae a concern about a topic. Requests are assigned to the appropriate personnel who conduct research and then write a final report. These files typically contain a problem-solving request, research notes, and a final report. Documentation to be destroyed after 5 years final report to Archives.	Paper	1/27/1995 Years	5	No Retention	0 Destroy	Current

<hr/>						
Schedule #: 1146 22#:Maine Local Roads Center Workshop Records						
The purpose of the Maine Local Roads Center is to educate (through workshops and seminars) municipal employees on transportation related issues. These files contain workshop registration forms, evaluation sheets, and other related workshop information.	Paper	1/19/1995 Years	2	No Retention	0 Destroy	Current
<hr/>						
Schedule #: 1147 26#:Bituminous Job Mix Files						
Plant and street reports needed to keep histories of bituminous mix designs for reference. It is important to keep these histories in case a paving job needs to be analyzed. A bituminous mix is made up from petroleum products,it is a mixture of hydrocarbons; it is what most refer to as"hot-top".	Paper	1/20/1995 Years	5	No Retention	0 Destroy	Current
<hr/>						
Schedule #: 1147 27#:Bituminous Mix Designs						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
These files contain records that document the bituminous pavement mixes that are used in construction projects. These are kept as a reference to previous designs used, their locations, and the materials involved. The records are necessary to track pavement performance.	Paper	1/20/1995 Years	30	No Retention	0 Destroy	Current
<hr/>						
Schedule #: 1208 33#:State Leases - DOT Right of Way						
Lease Agreement between the property owner and the MDOT to lease the facility for a certain amount of time. Files include: memorandum of lease between lessee and State, correspondence, memos, legal documents, if applicable. Keep in agency 10 years after lease completed.	Digital File	11/28/2018 Years	10	No Retention	0 Destroy	Current
<hr/>						
Schedule #: 1208 34#:Property Management Agreements, DOT Right of Way						
Agreements between State and Property Owners for maintenance of property, Requisition for Special Services, Contract Agreements for such things as snow plowing, lawn care, plumbing and electrical services, carpentry services, copies of Deeds, copies of bills, copies of Real Estate and other Legal documents, copies of letters and memos. These agreements are made between the DOT and property owners during the right-of-way phase of a transportation project, generally.	Digital File	11/28/2018 Years	20	No Retention	0 Destroy	Current
<hr/>						
Schedule #: 1211 35#: Commission Record Items						
These records are the result of a regular meeting conducted by the commissioner of Transportation in which all department business is discussed. Most of the discussion centers around "projects" each of which is numbered and briefly described for the record. Also recorded is the action taken on the projects and who recommended that the action be taken, as well as the commissioner's concurrence or disagreement with the action, the monies spent on the projects and/or approval to spend more money, contained in this record is retained for historical reference as a delineation of the department's activities as part of state government. Keep electronic record in department forever.	Record Copy	9/6/2011 Variable - See Description	0	No Retention	0 Archives	Current
<hr/>						
Schedule #: 1329 41A:Marine Projects - Ferry Service (Sears Island)						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
These are original files of the Director containing project history, understandings between parties and other pertinent documentation. Files in this series may be retrieved to verify historical elements of a project or to verify obligations of others to perform in a specific manner or to undertake a specific task. Ferry service projects include: developing maximum vessel sizes; number of vehicles to be carried by ferries, design and construction schedules etc.	Record Copy	9/6/2011 Years	60	Years 0	Archives	Current

<hr/>						
Schedule #: 2081 45:Project Related Files						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
This schedule contains all files created as part of any project, by any program within MaineDOT, not identified by a separate more specific schedule. All projects at MaineDOT are currently tracked by a Project Number, a PIN (Project Identification Number), or a WIN (Work Identifier Number). In the past, some projects were not tracked by any of these identifiers, this schedule will include any of those projects retroactively. Going forward, any file created as part of a project should contain a WIN and would be held accountable to this schedule if not specifically identified in any other schedule.	Mixed	8/21/2017	Years 10	No Retention 0	Destroy	Current
<hr/>						
Schedule #: 2081 46:Bridge Records - Critical Bridge Files						
All project files and post project maintenance files that must be kept for the life of a bridge as identified by the following list: Final Quantity Computations, Testing File, PS&E (Plans, Specs, and Estimate), Design Computations, Load Ratings, Bridge Postings, Contract Book, Amendments (Bid and Contract) Modifications (Contract), Bid Tabulations, Schedule of Items, Correspondence (Bid related & Bad Bridge letters), Scour plans, PDR (Preliminary Design Report), Plans, Shop Drawings & As Built), Bridge Inspection Reports, Maintenance Reports, Damage and Accident Reports, Operation Manuals, Clearance Survey, and Deck Evaluations. All files to be kept 10 years past retirement of bridge.	Mixed	8/21/2017	Contingent Upon Event - See Description	0 No Retention 0	Destroy	Current
<hr/>						
Schedule #: 2081 49:Project Related Files - Long Term						
Due to the cycles of our Pavement Preservation program that extend longer than 10 years there are certain documents that are part of MaineDOT's project records that should be kept for a long term (60 year) retention instead of the default short term (10 year) retention. These documents are the Preliminary Design Report (PDR), the Plans, Specs, and Estimates (PS&E), the awarded Contract Specification Book (Bid Book), Pavement Assessment Reports, and any Bid Amendments. These documents will be referenced as our Pavement Preservation process cycles around for current projects and these previous project files will need to be available. As such, a long-term retention would allow these files to be available when the cycle rolls around.	Digital File	4/22/2025	Years 60	0	Destroy	Current
<hr/>						
Schedule #: 2255 47:Geotechnical - Soils Reports / Design Memo						

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status		
Historic and contemporary soils (Geotechnical) reports, including Geotechnical Boring Logs, Subsurface Profiles, Laboratory Testing Results, Geotechnical Design Calculations, and addendum and memos to reports. These are archival because the geologic data included in these reports will be consistently utilized in future projects regardless of the age of the original report. This information is incredibly valuable to other entities (both public and private) outside of DOT looking for information regarding subsurface geological conditions statewide. Any original paper records will be sent to the Maine State Archives after they are scanned into TEDOCS. Original electronic records will be retained in the agency until such a time as the Maine State Archives secures a digital preservation system, at which time electronic archival records will be transferred.	Mixed	6/3/2022	Variable - See Description	0	No Retention	Archives	Current	
<hr/>								
Schedule #: 2255 48:Geotechnical - Construction Documents								
Geotechnical Project related construction documents separate from the Soils Reports / Design Memos including: New calculations done outside of the original soils report design calculations, Geotechnical Instrumentation Data, Pile Driving Logs, Drilled Shaft Integrity Tests, Drilled Shaft Load Tests, Verification and Proof Tests, Micro-pile Installation Logs, and Soil Nail Installation Logs. These need to be kept longer because the information will be used to address issues that occur at the site, long after the project is complete. As such a longer-term retention is required.	Mixed	6/3/2022	Years	60	No Retention	0	Destroy	Current
<hr/>								
Schedule #: 2265 50:Property Management Project File								
These records for Property Management are generally records of properties that are owned by MaineDOT as excess properties. These records are project files under the following categories of either an inquiry, sale, lease, or license. These are Property Management’s working project files and can consist of several documents that may include correspondence, emails, memorandums, notes, agreements, deeds, appraisals, inquiries and contracts. Property Management may also have other categories with project files which would include purchases, appraisals, demolition contracts and RFPs. These files are kept in the agency for as long as the agency owns the property. Once sold or vacated hold these files for 10 years then destroy.	Mixed	2/6/2023	Years	10	No Retention	0	Destroy	Current
Mixed material can include several formats but generally will be electronic records.								
<hr/>								

243#:Transportation Services

Schedule #: 326 2#:Contracts (Snow Removal Reimbursement Program)

Department Series Report

17: Transportation

Description	Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status
Original signed contracts with various towns/cities/counties requesting participation in Snow Removal Reimbursement Program; report of labor and equipment rates and classifications, and correspondence related thereto.	Digital File	11/28/2018	Years 7	No Retention 0	Destroy	Current
Schedule #: 803 4#:Aircraft Registrations						
Application and registration of aircraft.	Paper	10/18/1989	Years 2	No Retention 0	Destroy	Current
Schedule #: 803 5#:Project Files (Air Transportation)						
All project files related to the Augusta Airport, or statewide affecting all airports. MaineDOT is responsible for maintaining such records for 20 years past close of project. All project files relating to any other airport is the responsibility of that Airport to maintain.	Record Copy	8/21/2017	Years 20	No Retention 0	Destroy	Current
Schedule #: 803 6#:Snow removal File (Air Transportation)						
Aid agreement with municipality; certification of costs.	Paper	10/18/1989	Years 2	No Retention 0	Destroy	Current
Schedule #: 803 7#:Lease tenants file (Air Transportation)						
Airport tenant leases - files contain lease agreement, certificate of insurance, complaints and related correspondence. Keep in agency until lease termination plus 1 year.	Paper	10/18/1989	Years 1	No Retention 0	Destroy	Current
Schedule #: 1141 10#:Pavement Management System ARAN Videotapes						
Color Images taken by ARAN Data Collection Vehicle, and Pavement Images/Crack Maps generated by Vision processing. These are used by Highway Management and others to monitor condition and deterioration of pavement.	Digital File	12/6/2019	Years 10	No Retention 0	Destroy	Current
Schedule #: 1141 11#:Maine Local Roads Center Videotapes						

Department Series Report

17: Transportation

Description		Media	Last Updated	In Agency Retention	Rec Center Retention	Disposition	Status		
The purpose of these tapes is to educate municipal personnel. Videos can be borrowed by municipal employees at no charge to be used as reference material or training material. The videos contain technical information regarding the maintenance and/or rehabilitation of roads, related transportation issues, etc. Destroy when tapes are damaged or outdated.
