Recommendations Template for ERC Subcommittees

1. Which sector does this recommendation support, and/or which barriers does it address?

2. What is the recommendation?

3. How urgent is this recommendation? (i.e. should it move forward immediately)

4. What are the benefits?

5. What are the costs?

6. When should implementation begin and when is an outcome realized?

7. Will any populations, communities, or industries be disadvantaged by this recommendation?

8. Is there an existing model for this, in or outside of Maine?

9. What additional data or information is needed, if any?

10. What else should be considered to evaluate this recommendation?
