The Maine Bicycle tours are published by the Maine Department of Transportation (MaineDOT) as an aid to bicyclists. All routes shown on these tours are on regular state and local roads used by automobiles, trucks, buses and other motorized vehicles. The MaineDOT in no way warrants the safety or suitability of the routes indicated on these tours for shared bicycle/motor vehicle use or for use by young and/or inexperienced riders. Bicyclists assume the risk for their own safety at all times when travelling on the indicated routes. The routes have been selected by experienced bicyclists, as some routes and inclusion of a tour in the book does not indicate that the roads are in good condition or currently or ever will have a paved shoulder. Although the MaineDOT has made a reasonable effort to ensure that the information contained on this tour is correct as of the date of publication, the MaineDOT and the Department in no way warrants its accuracy. MaineDOT assumes no liability for personal injuries or property damages suffered by bicyclists.

Mileage readings may vary. We recommend you carry a detailed map of the area with you.
