29.16 APPENDIX III – Performances Mesures Measures .......................................................... 3934

29.17 APPENDIX IV – Additional Requirements for Section 29 Providers of Community Support and Employment Specialist Services................................................................. 41
Support Services for Adults with Intellectual Disabilities or Autistic Disorder are for adults who either live with their families or live on their own. Support Services are also designed to support members in the workplace. Support Services are provided under a Federal 1915 (c) waiver that meets Federal standards. Eligible MaineCare members may only receive services under one waiver benefit at a time. MaineCare members can receive covered services as eligible and as detailed in other Sections of the MaineCare Benefits Manual.

To be eligible for this benefit, members must meet medical eligibility, financial eligibility and require the level of care in order to receive services. The planning process identifies members’ needs, which must be documented in a personal plan and then authorized. If all available funded openings are full the member is placed on a waiting list as described in Section 29.03.

The Home and Community Based Benefit (HCB or Benefit) for members with Intellectual Disabilities (ID) or Autism Spectrum Disorder (ASD) gives members eligible for this Benefit the option to live in their own home or in another home in the community thus avoiding or delaying institutional services. The Benefit is offered in a community-based setting as an alternative for members who qualify to live in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). The Benefit supplements, rather than replaces supportive, natural personal, family, work, and community relationships. It does not duplicate other MaineCare services.

The HCB Benefit is provided under a Federal 1915(c) waiver that meets Federal standards. MaineCare members may receive covered services as detailed in other sections of the MaineCare Benefits Manual, but can receive services under only one Home and Community Based waiver at any one time.

This Benefit assures that every waiver service setting (including home, community, and work):
- Is integrated in and supports full access to the greater community;
- Is selected by the member from among setting options;
- Assures member rights of privacy, dignity and respect, and freedom from coercion and restraint;
- Optimizes autonomy and independence in making life choices; and
- Facilitates choice regarding services and who provides them.

In addition, the planning process includes identifying and documenting the member’s needs in a Personal Plan. The Personal Plan describes certain facilitative, therapeutic, and intervention services and supplies with an overall goal of community inclusion.

The Benefit is a limited one. Each year the Department of Health and Human Services (DHHS) must identify the total number of unduplicated members it will provide the benefit to during that year. If there is no funded opening, or if a member is not eligible for a funded opening based on priority, the member is placed on a waiting list as described in this rule.

This rule does not alter or supplant those sections of Maine statute, regulation, or DHHS policy.
The Department is seeking and anticipates receiving CMS approval for this Section. Pending approval, Covered Services will be provided as follows....
