On January 13, 2020, the Department received a citizen petition to initiate rulemaking to amend the Chapter 400: Maine Solid Waste Management Rules to: "clarify requirements for Public Benefit Determinations relating to approval of waste facilities, by ensuring that the definition of "waste that is generated within the State" accurately describes the sources of waste materials disposed in the State, and by requiring Public Benefit Determinations to include consideration of the impacts on health and welfare, environmental justice and equal protections for communities where waste facilities operate." The Department is posting the proposed changes to public hearing pursuant to 5 M.R.S. § 8055.
