This includes investigations initiated during the first quarter of MMWR Year 2018 (December 31, 2017 through March 31, 2018). Only investigations with a case status are included in this report. For all outbreak conditions confirmed, probable, and suspect case statuses are included. For non-outbreak conditions confirmed and probable case statuses are included. If a condition is not listed that means no cases met the case definition during this time.
