1995 WEEKLY BENEFIT TABLE

(Based on 80% of After-Tax Average Weekly Wage)

The attached table is provided in accordance with Section 102(1) of the Maine Workers' Compensation Act of 1992 which states that the Board shall publish tables of the average weekly wage and 80% after-tax average weekly wage. This table shall be considered conclusive for the purpose of converting an average weekly wage into 80% of after-tax average weekly wage.

The 1995 maximum weekly compensation rate is \$441

Directions

1. Find the employee's average gross weekly wage in the left column rounded to the nearest dollar.
2. Determine the employee's filing status.
3. Determine the employee's number of dependents. The number of dependents does not include the employee. For example, a single taxpayer with no spouse or children has "0" dependents in most instances. The table entry for "0" dependents includes one exemption for the employee.
4. Match the appropriate average gross weekly wage and filing status with the appropriate number of dependents.
5. The figure shown is the weekly compensation rate and represents 80% of after-tax average gross weekly wage.

Notes:

The formula for calculation of rate is:

Weekly compensation benefit = (Average gross weekly wage - FICA - Federal income tax - Maine state income tax) *80%.

FICA = Social Security + Medicare

The 1995 maximum weekly compensation rate is \$441.
